

**Bibliography Related to B. Bentzen's Presentation on
RESEARCH ON WAYFINDING SYSTEMS
FOR PEDESTRIANS WHO ARE BLIND**

- Aiello, J. & Steinfeld, E. (1980). *Accessible buildings for people with severe visual impairment*. Washington, DC: US Department of Housing and Urban Development, Office of Policy Research, Report No. HUD-PDR-404.
- Ashmead, D.H., Wall, R.S., Bentzen, B.L., and Barlow, J.M. (2004) Which crosswalk? Effects of audible pedestrian signal characteristics. *ITE Journal*, September, pp. 26-31
- Barlow, J.M. Bentzen, B.L. and Tabor, L. (2003). *Accessible pedestrian signals: Synthesis and guide to best practice*. Berlin, MA, Accessible Design for the Blind, Prepared for the National Cooperative Highway Research Program (NCHRP 3-62).
- Bentzen, B.L., Barlow, J.M., and Franck, L. (2004) Speech messages for accessible pedestrian signals. *ITE Journal*, September, pp. 20-24.
- Bentzen, B.L., Barlow, J.M., and Gubbé, D. (2000). Locator tones for pedestrian signals. *Transportation Research Record 1705*, pp. 40-42.
- Bentzen, B.L., Barlow, J.M., and Tabor, L. (2000). *Detectable warnings: Synthesis of U.S. and international practice*, Washington, DC, US Access Board.
- Bentzen, B.L. & Myers, L.A. (1997). Human factors research, Appendix C in *Detectable warnings evaluation services*. Menlo Park, CA: Crain & Associates, Inc.
- Bentzen, B.L. & Barlow, J.M. (1995). Impact of curb ramps on safety of persons who are blind. *Journal of Visual Impairment and Blindness*, 89:319-328.
- Bentzen, B.L. (1994). *Detectable warnings in transit facilities: Safety & negotiability*. Federal Transit Administration and Project ACTION of the National Easter Seal Society.
- Bentzen, B.L.; Nolin, T.L. & Easton, R.D. (1994). *Detectable warning surfaces: Color, contrast and reflectance*. Final report. US Department of Transportation, Federal Transit Administration, Volpe National Transportation Systems Center. VNTSC-DTRS 57-93-P-80546.
- Bentzen, B.L.; Nolin, T.L.; Easton, R.D.; Desmarais, L. & Mitchell, P.A. (1994). *Detectable warnings: Safety & negotiability on slopes for persons who are physically impaired*. Federal Transit Administration and Project ACTION of the National Easter Seal Society.
- Bentzen, B.L.; Nolin, T.L.; Easton, R.D.; Desmarais, L. & Mitchell, P.A. (1993). *Detectable warning surfaces: Detectability by individuals with visual impairments, and safety and negotiability for individuals with physical impairments*. Final report VNTSC-

DTRS57-92-P-81354 and VNTSC-DTRS57-91-C-0006. U. S. Department of Transportation, Federal Transit Administration, Volpe National Transportation Systems Center, and Project ACTION, National Easter Seal Society.

Bentzen, B.L. & Peck, A.F. (1989). In-transit research concerning tactile warnings to promote safety in the vicinity of transit platform edges, Vol. 4 of *Enhancing the use of rail rapid transit by visually impaired travelers*, US Department of Transportation, Report No. UMTA-MA-06-0141-88-4.

Bentzen, B.L. & Peck, A.F. (1989). Laboratory research concerning tactile warnings to promote safety in the vicinity of transit platform edges, Vol. 3 of *Enhancing the use of rail rapid transit by visually impaired travelers*, US Department of Transportation, Report No. UMTA-MA-06-0141-88-3.

Bentzen, B.L. & Peck, A.F. (1989). Tactile warnings to promote safety in the vicinity of transit platform edges: Laboratory testing of Pathfinder Warning Tile vs. "corduroy", Vol. 5 of *Enhancing the use of rail rapid transit by visually impaired travelers*, US Department of Transportation, Report No. UMTA-MA-06-0141-88-5.

Carroll, J. & Bentzen, B.L. (1999). American Council of the Blind survey of intersection accessibility. *The Braille Forum* 38, 11-15.

Gallon, C., Oxley, P. & Simms, B. (1991). *Tactile footway surfaces for the blind: Contractor report 257*. Crowthorne: England: Transport and Road Research Laboratory. .

Guidance on the use of tactile paving surfaces. (1998). London, U.K.: Department of the Environment, Transport and the Regions.

Hauger, J, Rigby, J, Safewright, M. & McAuley, W. (1996). Detectable warning surfaces at curb ramps. *Journal of Visual Impairments and Blindness* 90:512-525.

Hauger, J.S., Safewright, M.P., Rigby, J.C. & McAuley, W.J. (1994). *Detectable warnings pro-ject: Report of field tests and observations*. Final Report to U.S. Architectural and Transportation Barriers Compliance Board. Blacksburg, VA: Virginia Polytechnic Institute and State University.

Hughes, R.G. (1995). *A Florida DOT field evaluation of tactile warnings in curb ramps: Mobility considerations for the blind and visually impaired*. Chapel Hill, NC: The University of North Carolina at Chapel Hill, Highway Safety Research Center.

Ibukiyama, S., Fujita, D., Yoshioka, A., & Kinoshita, S. (1985). *Standards for textured guide strips for the visually impaired*. Chiyoda-ku, Tokyo, Japan: The Japan Highway Association, Inc.

Murakami, T., Aoki, S., Taniai, S., & Muranaka, Y. (1982). Braille blocks on roads to assist the blind in orientation and mobility. *Bulletin of the Tokyo Metropolitan Rehabilitation Center for the Physically and Mentally Handicapped*, 11-24.
