TRANSPORTATION EXPANSION PROJECT RECEIVES TRANSPORTATION ACHIEVEMENT AWARD

AUGUST 5, 2007, WASHINGTON, DC—The Transportation Expansion Project (T-REX) received the Transportation Achievement Award for Operations at the Institute of Transportation Engineers (ITE) 2007 Annual Meeting and Exhibit, being held August 5-8, 2007 in Pittsburgh, PA, USA.

T-REX received the award due to the fact that the project is an example of a highly successful public/private partnership, completed using a fast-track, design-build approach. The project went from initial concept development through design, systems engineering and construction and opened for operation in less than five years.

The Transportation Achievement Award for Operations recognizes significant and outstanding transportation achievements by other entities concerned with transportation, such as government agencies, legislative bodies, consulting firms, industry and other private-sector organizations.

For a complete listing of all of ITE's 2007 award winners, visit the ITE Web site at www.ite.org.

The Institute of Transportation Engineers is an international educational and scientific association of transportation professionals who are responsible for meeting mobility and safety needs. Through its products and services, ITE promotes professional development of its members, supports and encourages education, stimulates research, develops public awareness programs and serves as a conduit for the exchange of professional education.

Founded in 1930, ITE serves as your source for expertise, knowledge and ideas through meetings, seminars and publications, and through its network of more than 17,000 members working in more than 92 countries.
