WORLD TRADE CENTER MEMORIAL FOUNDATION AND THE LOUIS BERGER GROUP INC. RECOGNIZED WITH TRANSPORTATION ACHIEVEMENT AWARD FROM THE INSTITUTE OF TRANSPORTATION ENGINEERS

AUGUST 5, 2007, WASHINGTON, DC—The World Trade Center Memorial Foundation and The Louis Berger Group Inc. received the Transportation Achievement Award for Pedestrians at the Institute of Transportation Engineers (ITE) 2007 Annual Meeting and Exhibit, being held August 5-8, 2007 in Pittsburgh, PA, USA.

The World Trade Center Memorial Foundation and The Louis Berger Group Inc. were recognized for the World Trade Center (WTC) Memorial Pedestrian Simulation Modeling Project. The result of the model runs provided important analytical outputs that were used by the WTC Memorial designers. Using the input data, the model was used to create a realistic simulation of how the site would operate and was used to identify congested areas, underutilized areas, heavily traversed paths and areas of pedestrian conflict due to the location of objects such as signs, benches and landscaping.

The Transportation Achievement Award for Pedestrians recognizes significant and outstanding transportation achievements by other entities concerned with safety improvements in transportation, such as government agencies, legislative bodies, consulting firms, industry and other private-sector organizations.

For a complete listing of all of ITE's 2007 award winners, visit the ITE Web site at www.ite.org.

The Institute of Transportation Engineers is an international educational and scientific association of transportation professionals who are responsible for meeting mobility and safety needs. Through its products and services, ITE promotes professional development of its members, supports and encourages education, stimulates research, develops public awareness programs and serves as a conduit for the exchange of professional education.

Founded in 1930, ITE serves as your source for expertise, knowledge and ideas through meetings, seminars and publications, and through its network of more than 17,000 members working in more than 92 countries.
