PINELLAS COUNTY PUBLIC WORKS RECEIVES TRANSPORTATION ACHIEVEMENT AWARD FROM THE INSTITUTE OF TRANSPORTATION ENGINEERS

AUGUST 5, 2007, WASHINGTON, DC—The Pinellas County, FL, USA, Public Works, Traffic Management Division received the Transportation Achievement Award for Signal Systems at the Institute of Transportation Engineers (ITE) 2007 Annual Meeting and Exhibit, being held August 5-8, 2007 in Pittsburgh, PA, USA.

The county was recognized for the successful deployment and operation of the Stage I Countywide ATMS Adaptive Signal System, the first and largest adaptive control installation utilizing the federally funded and developed RT-TRACS research project software.

The Transportation Achievement Award for Signal Systems recognizes significant and outstanding transportation achievements by other entities concerned with safety improvements in transportation, such as government agencies, legislative bodies, consulting firms, industry and other private-sector organizations.

For a complete listing of all of ITE's 2007 award winners, visit the ITE Web site at www.ite.org.

The Institute of Transportation Engineers is an international educational and scientific association of transportation professionals who are responsible for meeting mobility and safety needs. Through its products and services, ITE promotes professional development of its members, supports and encourages education, stimulates research, develops public awareness programs and serves as a conduit for the exchange of professional education.

Founded in 1930, ITE serves as your source for expertise, knowledge and ideas through meetings, seminars and publications, and through its network of more than 17,000 members working in more than 92 countries.
