***Railroad-Highway Grade Crossing Handbook—Revised Second Edition 2007***

Federal Highway Administration (FHWA), Office of Safety and Design

FHWA Report No.: FHWA-SA-07-010

Posted: 9/3/08

- On page 46, the formula should read:

$$B = \frac{T_0}{T_0 + T}(a) + \frac{T}{T_0 + T} \left(\frac{N}{T}\right)$$

- On page 46, the following formula needs to be added before “Values for the second collision prediction...”:

$T_0$  = Formula weighting factor,

$$T_0 = \frac{1.0}{(0.05 + a)}$$

- On page 175, the formula after “Posted speed 40 mph or less” should read:

$$L = \frac{WS^2}{60}$$

- On page 177, the formula after “Posted speed 45 mph or more” should read:

$$L = WS$$
