

## 2020 ITE Collegiate Traffic Bowl, Virtual Edition

### Rules and Instructions for the Virtual Tournament Games

#### Introduction

For the 2020 ITE Collegiate Traffic Bowl, Virtual Edition, the rules of play have been modified to address the on-line environment and associated constraints . **The names of winning teams for a district and the Grand Championship Traffic Bowl will be added to the respective trophies or plaques, and gift cards will be sent to each district champion and the team winning the Grand Championship in 2020.** The various modifications are highlighted below, and the previous rule language has been removed.

#### Student Teams

A team for the ITE Collegiate Traffic Bowl shall consist of up to four (4) student members. Up to three (3) team members will participate during a traffic bowl match with one serving as an alternate to replace another member during the competition. Substitutions of team members are permitted from match to match within a competition; however, no substitution may take place during an individual match.

Each team member **must** be a **full-time student of the university that they represent, an International ITE member** (student or professional), **and have not reached their 27th birthday as of August 1, 2020.** **A student must also be a member of their university's chartered ITE student chapter. For 2020, a team may be comprised of students from up to two different universities or colleges.**

Students who received their undergraduate or graduate diploma at the end of the most recent academic term prior to their respective District's traffic bowl may participate as a member of their school's team. The student must meet all other eligibility requirements.

A student will not be eligible to participate as a member of their school's team if they are or have been chartered, registered or licensed as a professional engineer and/or received a certification from the American Institute of Certified Planners (AICP) or Transportation Professional Certification Board (TPCB).

If a student meets the eligibility requirements at the time of their District traffic bowl, they would be eligible to participate, if their team qualifies, in the Grand Championship. If a team member is unable to participate in an event, the team may substitute an alternate who meets the above eligibility requirements. **A team that wins a district traffic bowl should have at least half of its members participate in the Grand Championship tournament.** If this is not possible, the District may select another team to represent them.

#### *District/Section Traffic Bowls*

Students participating in a District traffic bowl shall meet the above participant eligibility requirements. The District traffic bowl coordinators will be responsible for determining that all students meet these eligibility requirements and notifying the chapter advisor of any issues. ITE staff can assist in determining the age of a potential participant. Contact Colleen Agan ([cagan@ite.org](mailto:cagan@ite.org)) with ITE staff for assistance.

# FINAL REVISED – September 14, 2020

To more fully fill out the field of teams competing in that event, more than one team from a school/student chapter may compete.

A second or third team may be entered provided that the first team and subsequent teams from a school have at least three (3) team members. Each team from a school/student chapter that wins at one level must retain the same roster of students for each successive level to which the team might advance. Replacements to the original team roster may be made due to unforeseen medical reasons with an accompanying justification from a medical doctor. It is recommended that team from the same school not compete against each other in rounds of play prior to a final round, if possible.

## ***Grand Championship Traffic Bowl***

A team advances to the ITE Collegiate Traffic Bowl Grand Championship by winning their respective ITE District's Collegiate Traffic Bowl competition.

In the case that the winning team from a District is unable to participate, the District may send the second-place team to the Grand Championship. It will be up to the District Board to make this determination and selection.

## **Participants Oath**

Every participant will make the following pledge:

*I promise to take part in these Traffic Bowl Games, respecting and abiding by the rules and in the spirit of fair play. I commit myself to participate without viewing notes or reference documents or receiving answers from individuals or sources other than my teammates during a game. I do this, for the ethics of the profession, for the honor of our team and in respect for the countless hours that volunteers have spent to develop and prepare these games and for the Fundamental Principles of the Traffic Bowl and ITE – A Community of Transportation Professionals.*

*Adapted from the participants oath of the Olympics*

## **Competition Category and Clue Resources**

The virtual competition may include categories and clues about ITE, transportation engineering and planning, general transportation knowledge, rules of the road, current events in surface transportation, popular culture topics (such as movies, music, sports, etc.) and general knowledge that are related to transportation planning and engineering. **For the virtual matches, clues may not follow the strict reference source documents as face to face competitions have in prior years, but they will still have relevance to traffic and transportation knowledge.**

Informational or reference sources for clues and responses (answers and questions) for the traffic bowl competition will include, but are not limited to, the following reference documents:

1. Traffic Engineering Handbook, 7th Edition
2. Transportation Planning Handbook, 4th Edition
3. Highway Safety Manual, 1<sup>st</sup> Edition (Only Part A - Chapters 1, 2, and 3)

## FINAL REVISED – September 14, 2020

4. USDOT Manual on Uniform Traffic Control Devices, 2009 Edition, revised May 2012, including valid Interim Approvals #1 through #21 (available on-line at [https://mutcd.fhwa.dot.gov/res-interim\\_approvals.htm#valid09](https://mutcd.fhwa.dot.gov/res-interim_approvals.htm#valid09))
5. Manual of Uniform Traffic Control Devices for Canada, 5<sup>th</sup> Edition
6. Highway Capacity Manual, 6<sup>th</sup> Edition
7. Canadian Capacity Guide, 3<sup>rd</sup> Edition, February 2008 (available on-line at <http://tac-atc.ca/sites/tac-atc.ca/files/site/doc/resources/report-capacityguide.pdf>)
8. ITE Web site, [www.ite.org](http://www.ite.org) – clues will be drawn primarily from material on ITE leadership, governance and structure; current activities and events; history of meetings, officers, and awards; and, information on ITE publications

The clues and responses will be presented in English to the teams, both in a spoken form by the emcee and on a visual display using a large projector screen or monitor. Both English and Metric units of measure will be accepted as answers. Clues may contain graphics, photos, or equations.

### **Competition Structure for Virtual Events**

#### ***ITE District Traffic Bowl Competitions***

The ITE District Traffic Bowl Tournaments will have a competition structure that may feature preliminary rounds with winners advancing three to four schools to a final match.

The students must meet all the eligibility requirements that have been previously set forth in these rules.

The day prior to the VIRTUAL District Traffic Bowl, a virtual team meeting will be conducted prior to the competition. At this meeting, the rules will be discussed, questions answered, and the seeding of teams for the preliminary rounds will be determined.

All teams must attend this meeting. Details of this meeting's time and on-line connection details will be sent to the teams in advance of the meeting.

#### ***ITE Traffic Bowl Grand Championship Competition Structure***

The ITE Traffic Bowl Grand Championship will have a competition structure that will feature preliminary rounds to advance three schools to a final match.

The day prior to the ITE VIRTUAL Traffic Bowl Grand Championship, a virtual team meeting will be conducted prior to the competition. At this meeting, the rules will be discussed, questions answered, and the seeding of teams for the preliminary rounds will be determined.

All teams must attend this meeting. Details of this meeting's time and on-line connection details will be sent to the teams in advance of the meeting.

# FINAL REVISED – September 14, 2020

## **Competition Brackets**

### For District Traffic Bowls

The size and structure of a competition's bracket will depend on the number of teams competing in the District traffic bowl. Depending on the number of schools participating, a qualification round may be conducted to identify up to 4 teams to compete in the final match to decide the district champion. The qualification round may consist of either a qualifying quiz of 10 clue/question to be answered in "Jeopardy style" with a tiebreaker question or virtual games with a reduced number of categories and clues. The bracketing and seeding methodology (blind draw of teams or seeding quiz, see below) will be presented to the participating schools prior to the event.

### For the Grand Championship Traffic Bowl

For the Grand Championship event, the bracket will feature ten teams. The teams will be seeded into two (2) semi-final matches of three teams and one semi-final match of four teams each using a seeding quiz. The winning teams from the three semi-final matches will then compete in the final championship match.

### Qualification Round Quizzes

If a qualification round quiz is utilized, it should feature 10 questions and tiebreaker. Each team will have 10 minutes to complete the quiz together. Questions would be drawn from the reference documents listed previously. Refer to the Traffic Bowl Handbook for details.

### Seeding Quizzes

If a seeding quiz is utilized, it should feature 10 questions and tiebreaker. Each team will have 10 minutes to complete the quiz together. Questions would be drawn from the reference documents listed previously. Refer to the Traffic Bowl Handbook for details.

## **Competition Format**

For the matches, the following competition format will be used.

***Preliminary or Semi-final Match (approximately 30 minutes) (actual number of matches depending on number of schools) format:***

- Introduction of teams and team members
- The First Round of each match will feature 20 clues/questions in 4 categories with 5 clues in each category. The match will continue until all clues are read and dispatched. **One clue will be designated as a "Daily Double"**.
- Final Clue (one clue/question), points to be determined by team
- **Tiebreakers: If there is a tie after the final written question, an additional question will be given by the emcee, using the same format of the First Round as provided in the following section. Refer to the following section of Rules of Play for further details.**
- (approximately a 4 to 5-minute break between matches)

# FINAL REVISED – September 14, 2020

## *Final Match (approximately 30 minutes) format:*

The teams advancing from the preliminary or semi-final matches will compete in the final match. The method for advancement to the final match will be described in the competition bracket.

- Introduction of teams and team members
- For the Final Match, the First Round will feature 20 clues/questions in 4 categories with 5 clues in each category. The match will continue until all clues are read and dispatched. **Two clues will be designated as a “Daily Double”.**
- Final Clue (one clue/question), points to be determined by team
- Tiebreakers: If there is a tie after the final written question, an additional question will be given by the emcee, using the same format of the First Round as provided in the following section. Refer to the following section of Rules of Play for further details.

## General Rules of Play

### **OVERVIEW**

1. Teams will be comprised of up to three (3) individuals. **Up to four (4) teams may compete at one time in a match.**
2. Contestants will be presented with clues and they will try to provide the correct responses. The clues will be organized **into four categories with five clues in each category.** Each clue in a category will be assigned point values, such as 100, 200, 300, 400, or 500. **The responses must be phrased in the form of question.**
3. Prior to the start of the match, one of the teams will be chosen to select the first category and point value. This selection can be accomplished by a random draw or designating the top seed for the match.
4. **For competition, the Zoom video conference application will be used.**
  - a. **Team participants will list their Zoom name as “3-letter initials for their school” – FirstName LastName.** The chat box function will be used by the teams when they have a response to a clue. **Teams shall not utilize virtual backgrounds with their video.**
  - b. **The Zoom meeting host will have all the student competitors muted, and the only time to unmute yourself will be to provide an answer or select the next question on the board.**
  - c. **If your school team is social-distancing and are not together, a team will need to engage a means to deliberate answers amongst the teammates. All school teams will be responsible for having a conference call with their teammates outside of the Zoom meeting.**

**For example, use your computer audio for the Zoom meeting and your cell phone to have a Google, Skype, Teams, or phone conference call with your teammates for the entire game.**

**For better audio, it is recommended that participants wear headphones or ear buds.**
  - d. **All participants should have their video on and should not use virtual background.**

## FINAL REVISED – September 14, 2020

- e. Each team MUST have the capability to send TEXT messages using a cell phone to the emcee or a judge for the final clue. The wager and the response will be sent as typed TEXT messages.
  - f. Each team will be assigned a three-letter code based on their school name to be used in the Zoom chat box as described below.
  - g. It is strongly suggested that teams shut down all other applications that are not needed to maximize their internet connectivity and speed to communicate via Zoom.
5. How to Answer Questions After Signaling In
- a. After your team has successfully signaled in and recognized by the emcee, your team will have **12 seconds** to give an answer. You can use this time to answer immediately or deliberate with your teammates on your separate, non-Zoom phone call.
  - b. Unmute yourself, verbally provide the answer in the form of a question, then mute yourself. On Apple MAC: the zoom shortcut for MUTE/UNMUTE is COMMAND + SHIFT + A  
ON WINDOWS: the zoom shortcut for MUTE/UNMUTE is ALT + A
6. Recording of the matches and the contents (clues/questions/responses/answers) by audience members by any means will be discouraged. The emcee should make an announcement at the start of the event.

### **PLAY OF FIRST ROUND**

7. During the first round of the match, clues will be read by the “Master of Ceremony” (emcee) and displayed to the teams. After the emcee has completely read the clue, teams will have **12 seconds to send their school’s three-letter code in the “EVERYONE” Zoom Chat box if they want to give an answer for the clue.** The first team (or individual on a team) who’s 3-letter school code appears **in the EVERYONE chat box AS SEEN BY THE EMCEE IN THEIR EVERYONE CHAT will be recognized by the emcee** will have the first opportunity to respond. After being recognized by the emcee, they will have **12 seconds** to confer and give their response.
- a. Participants must wait until the emcee completely reads a clue and enters “GO” in the chat box before entering their school code in the “EVERYONE” chat box to signal they want to give a response. The first school code after the “GO” in the EVERYONE chat box as seen by **the emcee** will be the team recognized by the emcee to respond. Each school should have their assigned code typed out and ready to “send it” - that way this isn’t a race of who can type the fastest!
  - b. For example: “Emcee Gary has finished reading the question”

#### **ZOOM “EVERYONE” CHAT BOX**

**Emcee Gary: GO**

**CAL-Kimberly Leung: cal**

**PUR-John Davis: pur**

**UW-Ken Voigt: uw**

**Emcee Gary: DONE**

## FINAL REVISED – September 14, 2020

*Here, CAL would be the team that is recognized to respond. The emcee will enter “DONE” in chat box when it is time to move on to the next clue.*

- c. For categories with clues that include abbreviations, acronyms, only graphics, and letter scrambles, the clues will not be read by the emcee. The teams will be allowed to send their school code as soon as the emcee has entered “GO” in the chat box. These categories will be pointed out to the participants at the beginning of and during a match.
  - d. For responses with people names, a response with only the individual’s first name will not be considered an acceptable or correct response unless specifically asked for in the clue.
8. If the first team responds **incorrectly or does not respond in the allotted time of 12 seconds, the emcee will verbally declare the answer incorrect, enter “GO” in the chat box, and the remaining teams will have 12 seconds to send their school code to the EVERYONE chat box. The first school code after the “GO” in the EVERYONE chat box as seen of the emcee will be the next team recognized by the emcee to respond.**
    - a. **If the next team responds incorrectly or does not respond in the allotted time of 12 seconds, the emcee will verbally declare the answer incorrect, enter “GO” in the chat box, and the remaining teams will have 12 seconds to send their school code to the EVERYONE chat box. The first remaining school whose code is shown after the “GO” in the EVERYONE chat box as seen by the emcee will be the next team recognized by the emcee to respond.**
    - b. **The process will be repeated until all teams have either responded or do not desire to try to respond. Once the process has been completed, the emcee will enter “DONE” in the chat box and move to the selection of the next clue.**
  9. The value of the clue will be deducted from the score of the appropriate team(s) for an incorrect response (or no response after being acknowledged by the emcee) and added for a correct response.
  10. The team that responds correctly will control the board and select the category and value of the next clue. The process is then repeated with each clue.
  11. If no team responds or responds correctly, the team that chose the clue will retain control of the board and select the category and value of the next clue. The process is then repeated.
  12. During a match, either one or two “Daily Double” displays will appear for a clue. The team in control of the board that selected the clue with a “Daily Double” shall be the **only team** to respond to the clue. They will place a wager of any whole number amount up to their current cumulative score or 500 points, **whichever is greater**. If they give a correct response, their wager will be added to their score. If a wrong response is given, the wagered points will be deducted from their score. The team in control will have **12 seconds** once the emcee has read the clue to give their response. In a match that would decide a District Champion or Grand Champion, two “Daily Double” clues may appear.
  13. If there is only one team having a positive cumulative score greater than zero at the end of the first round of a match, they will be declared the winner, but the Final Clue Round will be played. (There may be scoring records to be broken!)

# FINAL REVISED – September 14, 2020

## **PLAY OF FINAL CLUE ROUND**

14. The Final Clue Round of the match shall consist of a single clue in a single category that is indicated to all teams with a positive score at the end of the first round. A score of zero is considered a positive score. For the Final Clue, each team shall be able to make a point wager of any whole number amount up to their total cumulative score. Each team will need two (2) blank sheets of paper, a thick felt tip pen and the capability to send a text message to the emcee.
15. After the category of the final clue has been shown, a wager by each team shall be made prior to the reading of the final clue and sent to the emcee via a **TEXT MESSAGE TO THE EMCEE**. **The teams will have up to 60 seconds to record their wager.**
16. Each team will write down their wager on a blank sheet of paper with a thick felt tip pen. A designated person on each team will write the wager. A designated person on each team should also submit the same wager in a TEXT MESSAGE to the emcee. The emcee will provide their cell phone number to the teams in advance. For example, format the message like this: "CAL: 5000"
17. After the wagers are submitted, the emcee will read the clue and the teams will have **60 seconds** to write their answer down and send their answer to the emcee in a text message. A designated person will **write down the answer in the form of a question** on a second sheet of blank paper with a Sharpie or thick felt tip pen. A designated person on each team will submit the same answer in the form of a question to the emcee as a typed TEXT MESSAGE to the emcee. For example, "CAL - Who is Mark Spencer?"  
  
Each team will be called to show their answer by holding up the paper in front of the camera, then showing their wager. You do not need to write in reverse as zoom will make the letters show properly. **No virtual backgrounds are permitted as they cause the paper to not be seen.**
18. After the **60 seconds**, the emcee will start with the team with the lowest score and ask them to show their response and then their wager. The emcee will then ask the team with the next lowest score to show their response and then reveal their wager. Finally, the team with the highest score will be asked to show their response and then wager. If a wrong response (or no response) to the Final Clue is given, the wagered amount shall be deducted from a team's score. For a correct response, the wagered amount will be added to a team's score.
19. The team with the highest score after the Final Clue will be declared the winner of the match.
20. During the competition, it shall be the responsibility of the Judges to rule on any challenge of the rules and make a final decision. **The Judges' decisions shall be final and shall stand without recourse.**
21. **TIEBREAKER ROUND PLAY – SPECIAL END OF MATCH PROVISION**
  - a. If two or more teams are tied for the lead after the Final Clue or if no team has a positive score after the first round of play, ALL teams will be considered as being tied and this provision will be applied.
  - b. The teams that are tied will play a Tiebreaker Round.

## FINAL REVISED – September 14, 2020

- c. The Tiebreaker Round will consist of a single clue from a new category to be played in the same format as the First Round of Play. The first team to respond correctly wins the match. If no team responds correctly a subsequent category/clue will be presented.

---

### **Production Team/Staff**

The production team/staff will be responsible for the production of the matches and will consist of the following positions: master of ceremony (emcee), judging panel, competition/production coordinator/tech support, Zoom Meeting manager (host), clue board keeper / timekeeper, 3rd party scorekeeper / backup board keeper. The description of the roles for the production team is in a separate summary.
