PETE YAUCH RECEIVES BURTON W. MARSH AWARD FOR DISTINGUISHED SERVICE

WASHINGTON, DC — The Institute of Transportation Engineers (ITE) is pleased to announce that Pete Yauch, P.E., PTOE, RSP2I, has been selected to receive one of ITE’s top honors, the Burton W. Marsh Award for Distinguished Service. The award was established in 1970 to honor the legacy of long-time active ITE member and traffic engineering pioneer, Burton W. Marsh and seeks to recognize an individual who has contributed to the advancement of ITE over a period of years in an outstanding fashion.

“Pete’s engagement in ITE has been both significant and sustained. He continues to share his considerable knowledge and expertise with members on a regular basis and is a long-time leader in the Florida District. His many contributions to ITE have made us a stronger, more effective organization. He is certainly deserving of this honor,” said Jeffrey F. Paniati, P.E. (F), ITE Executive Director and CEO.

Pete is an Associate Vice President and TSM&O Practice Leader for Iteris, Inc., in the firm’s Tampa, FL, office. A native of St. Petersburg, FL, he and his family returned to the Tampa Bay area in 1988 after spending 15 years in the Atlanta area. Pete joined ITE as a student member at the Georgia Institute of Technology in 1975; he served as the Student Chapter President in 1977. He has twice served as President of the Florida Puerto Rico District, represented the District as a member of the International Board of Direction, and is currently in his fifth year as the District Administrator. Before joining Iteris’ predecessor firm, Albeck Gerken, Inc., in 2012, he was the Director of Public Works and Transportation and Assistant County Administrator for Pinellas County, FL. Prior to that, he worked in both the public and private sectors, including serving as the City Traffic Engineer for the City of Clearwater, FL, and the District Signal Systems and Safety Engineer for the Tampa Bay area district of the Florida Department of Transportation.

Pete has been a Fellow of the Institute of Transportation Engineers since 1998, and has been a peer reviewer for ITE *Journal* since 1986. He has received many awards over the years, including the John R. Freeman FLPRITE District Transportation Professional of the Year (2001); the Nathan H. “Nat” Rambo FLPRITE District Fellowship Award (2012); and the Sherwood H. “Woody” Hiller FLPRITE District Distinguished Service Award (2013).

Institute of Transportation Engineers

About ITE — Founded in 1930, ITE is a community of transportation professionals including transportation engineers, transportation planners, consultants, educators, technologists, and researchers. Through meetings, seminars, publications, and a network of more than 16,000 members working in 78 countries, ITE connects members to a world of ideas, people, and resources. The Institute of Transportation Engineers' (ITE) international awards program honors outstanding achievement in transportation and distinguished service to ITE. The awards bestow international recognition upon the recipients and increase the public's awareness of the role and responsibilities of the transportation professional.
