Why ITE Members Should be Advocates
Professional Knowledge & Credibility

"The purpose of the Institute shall be to enable transportation and traffic engineers, transportation planners, and other professionals with knowledge and competence in transportation and traffic engineering to contribute individually and collectively toward meeting human needs for mobility and safety…"

If you don’t...who will?

Understanding Lobbying and Advocacy

Lobbying always involves advocacy; advocacy does not include lobbying.

Understanding Lobbying and Advocacy

Does your audience make the laws or simply follow the rules to enforce them?

From a federal perspective, if the audience makes laws and you (or your local organization) are attempting to change legislation by encouraging these lawmakers to vote a certain way, then it's lobbying.
Understanding Lobbying and Advocacy

Does the organization want these individuals to vote a certain way on proposed legislation or simply be aware of issues?

Promoting a point of view and providing public education aren’t considered lobbying activities—even if you are speaking with a public official.
