

ITE Global District

For Student Members

www.ite.org/global

Who Should Join

University and college students pursuing careers in transportation, mobility, safety, planning, engineering, and related fields.

Why ITE

ITE—A Community of Transportation Professionals (ITE) helps students turn academic learning into real-world impact while building a global professional network.

Why the ITE Global District?

Transportation challenges—and careers—are increasingly global. The ITE Global District gives students exposure to international perspectives, emerging technologies, and real-world applications beyond the classroom.

Through the Global District, students connect with professionals and peers worldwide, build leadership experience, and gain insight into career paths that span regions, disciplines, and industries.

Value to You as a Student Member

- Gain exposure to cutting-edge transportation topics such as AI, data-driven decision-making, connected and automated vehicles (CAVs), safety, and emerging mobility
- Benefit from participation in ITE Councils and Committees
- Take on leadership roles within ITE Student Chapters
- Develop communication, teamwork, and leadership skills
- Network with transportation professionals worldwide
- Access mentorship, internship, and job opportunities
- Benefit from a strong focus on transportation safety and community impact
- Connect with a global community of students and professionals
