Rosana Correa Elected International President and John Davis Elected International Vice President of ITE

WASHINGTON, DC — Rosana Correa, P.E., PTOE (F), was elected as the 2023 International President of the Institute of Transportation Engineers (ITE) and candidate John Davis, P.E., PTOE, RSP1 (F), was elected as the 2023 International Vice President. Both will take office in January of 2023.

Rosana Correa is a project manager with Jacobs and has more than 15 years of experience as a traffic engineer, with extensive experience in all aspects of the profession. During her more than 20 years as a member of ITE, she has held many leadership positions, serving the Student Chapter at the University of Puerto Rico at Mayaguez, the Tampa Bay Chapter and the Florida Section, as well as representing the Florida District on the International Board of Direction from 2014-2016. She was instrumental in helping reactivate the ITE Puerto Rico Section in 2010. For more information on

Rosana, you can review her biography [here](#).

“I have had the opportunity to work with Rosana, first as an International Director and now as International Vice President. Rosana is a strong leader who has a deep understanding of ITE Districts, Sections and Student Chapters. This perspective will be invaluable as we continue to seek opportunities to better integrate all parts of the organization and enhance member value,” said Jeffrey F. Paniati, ITE Executive Director and CEO.

John Davis is City Traffic Engineer in Des Moines, IA, and has been an active member of ITE since he began his transportation career more than 35 years ago. He has held office in five Districts and Sections and has lent his leadership and expertise to several ITE Councils and Committees over the years. John has been an integral part of the success of ITE’s Annual Collegiate Traffic Bowl, leading its production for the past 13 years. You can read more about John [here](#).

ITE thanks Vice Presidential candidate Jeff Riegner, P.E., AICP, PTOE (F), for running a positive and professional campaign and for his many contributions to ITE.

About ITE

Founded in 1930, ITE is a community of transportation professionals including, transportation engineers, transportation planners, consultants, educators, technologists, and researchers. Through meetings, seminars, publications, and a network of more than 16,000 members working in 78 countries, ITE connects you to a world of ideas, people, and resources. For more information, visit www.ite.org.
