Joint ITE International and Great Lakes District Annual Meeting and Exhibition
Huntington Place | Detroit, MI
July 19–22, 2026

Get Inspired: A Sneak Peek at
Must-See Technical Sessions at #ITEDetroit26

The Joint ITE International and Great Lakes District Annual Meeting and Exhibit (#ITEDetroit26) is shaping up to be an essential event for transportation professionals looking to stay ahead of emerging trends, sharpen their skills, and connect with peers from across the industry—and the concurrent technical sessions are where that learning truly comes to life.

This year's program features a diverse mix of forward-thinking and practical sessions designed to address today's most pressing transportation challenges. Here's just a sample of what you can expect:

- **Innovations in Traffic Management Using AI** – Discover how agencies are leveraging artificial intelligence to improve safety, enhance operations, and make real-time, data-driven decisions for smarter transportation systems.
- **Designing Better Bus Stops: Balancing Speed, Bike Safety, and Pedestrian Comfort** – Learn how to navigate trade-offs in Complete Streets design with new guidance that integrates transit performance, multimodal safety, and accessibility.
- **Fundamentals of Conducting Road Safety Audits** – Gain practical, step-by-step guidance into implementing road safety audits and applying them to improve safety outcomes for all users.
- **Transportation Innovation for the FIFA World Cup** – Explore how large-scale event planning is evolving, including the role of AI and coordinated operations in preparing for global events.

- **E-Micromodes: Opportunities and Challenges for Transportation Planning** – Dive into the rapidly growing world of micromobility, including policy considerations, safety concerns, and strategies for integrating these modes into existing systems.
- **Engineering Safer Streets Around Schools** – Examine data-driven approaches and real-world strategies to improve safety in school zones through design, policy, and implementation.

These sessions represent just a fraction of the robust technical program, which spans key areas such as safety, planning, operations, technology, and professional development—ensuring there’s something valuable for every attendee.

Don't miss your opportunity to be part of these important conversations. Register today to secure your spot and take advantage of the full conference experience.
