

STEM Outreach Competition

To promote, encourage, and celebrate the K-12 STEM Outreach efforts of our members, ITE is once again hosting a STEM Outreach Competition among the Sections and Chapters during Fall 2019.

WHO: ITE Sections and Chapters (including student chapters)

WHAT: STEM Outreach Competition to recognize stellar outreach efforts!

HOW TO PARTICIPATE:

1. As a Section or Chapter, organize one or more stellar K-12 STEM outreach events during Fall 2019.

Consider using one of the transportation-themed STEM activities developed by STEM Committee members or any of the other educational resources that are featured on the [ITE STEM Resources webpage](#).

2. During the outreach event, document the number of members and the number of children who participated. Take photos of the event and of your ITE members engaging in the STEM outreach activity.
3. After the outreach event, share the details with the ITE STEM Committee by submitting the simple [entry form](#) by December 6, 2019.

PRIZE: Two winning entries will each be recognized with a **\$250 cash award** to their Section or Chapter (to be used to further K-12 STEM Outreach in the winners' regional area). The outreach efforts will also be featured in the February 2020 ITE Journal.

IMPORTANT DATES:

- The outreach must occur during Fall 2019.
- The competition entry must be submitted by **December 6, 2019**.
- The winner will be selected **mid-December 2019**.
