The Future of Transportation has Arrived
Thermal Detects Best.

Day, night, and in the toughest conditions.

Departments around the country have all discovered one simple fact: Thermal outperforms their other detection technologies, and overcomes the challenges faced by optical video systems.

Visit us in booth 404 to learn more!

Visit FLIR.com/ITE to see video proof that thermal detects best.

Get The FLIR Advantage
- The Experts in Thermal Imaging
- Tough Cameras Built to Last
- 10-Year Detector Warranty

Try Before You Buy!
Call 877.773.3547 and ask about our free 30-day trial program.
The future of transportation has arrived. Don’t get left behind.

Continually changing metropolitan mobility needs mean you must consider more factors than ever before when doing your job. Safety and operations considerations are just the beginning. You also must consider public policy, environmental impact, public health implications, emerging trends in transportation modes, and an abundance of growing community needs.

How do you integrate all of these demands into your transportation projects? How can you make sure you are at the table when important decisions about your community are made? Where might you find new funding sources and partnerships? And, possibly most important of all, how do YOU fit into the future of transportation?

Through innovative education and face-to-face collaboration, ITE will provide you with a roadmap to navigate these complex relationships and emerging trends. Attend plenary sessions for big picture ideas and food-for-thought. Join roundtables for in-depth discussion and brainstorming with your peers. Hear case studies that demonstrate how organizations have been able to successfully surmount these challenges. Then, go home with concrete ideas for implementation in your own neighborhood, and resources to turn your ideas into reality.

This isn’t business as usual.
schedule of events

Sunday, March 3
8:00 a.m.–5:30 p.m.  Council & Committee Meetings, see p. 11 for details
2:00 p.m.–5:00 p.m.  Registration, Harbor Island Ballroom Foyer

Monday, March 4
7:30 a.m.–5:30 p.m.  Registration, Harbor Island Ballroom Foyer
7:45 a.m.–8:30 a.m.  Continental Breakfast, Harbor Island Ballroom II
8:30 a.m.–6:00 p.m.  Education Sessions, see p. 6–10 for details
10:00 a.m.–4:30 p.m.  Exhibits Open, Pavilion
10:00 a.m.–11:00 a.m.  Networking Break, Pavilion
11:00 a.m.–4:15 p.m.  Council & Committee Meetings, see p. 11 for details
12:30 p.m.–2:00 p.m.  Lunch in the Exhibit Hall, Pavilion
4:30 p.m.–6:00 p.m.  Prospective Candidates for International Office Reception, Executive Center 1
6:00 p.m.–7:00 p.m.  ITE Networking Social, Pavilion

Tuesday, March 5
7:30 a.m.–4:30 p.m.  Registration, Harbor Island Ballroom Foyer
7:45 a.m.–8:30 a.m.  Continental Breakfast, Harbor Island Ballroom Foyer
8:30 a.m.–6:00 p.m.  Education Sessions, see p. 6–10 for details
8:30 a.m.–4:15 p.m.  Council & Committee Meetings, see p. 11 for details
10:00 a.m.–4:30 p.m.  Exhibits Open, Pavilion
10:00 a.m.–11:00 a.m.  Networking Break, Pavilion
12:30 p.m.–2:00 p.m.  Lunch in the Exhibit Hall, Pavilion
6:00 p.m.–7:00 p.m.  Proxim Wireless Networking Social, Spinnaker

Wednesday, March 6
8:00 a.m.–10:30 a.m.  Registration, Harbor Island Ballroom Foyer
8:30 a.m.–12:00 p.m.  Education Sessions, see p. 6–10 for details
1:00 p.m.–5:00 p.m.  Integrated Corridor Management (ICM)—Going Live in San Diego Technical Tour, Departs from outside the Grande Ballroom Foyer
2:00 p.m.–4:00 p.m.  Transportation Technology Mashup, Seabreeze I

acknowledgments

ITE is grateful to its many members, their employers, and their families for their support of the ITE 2013 Technical Conference and Exhibit. In particular, ITE would like to thank:

San Diego Association of Governments for providing logistical support for the Integrated Corridor Management (ICM)—Going Live in San Diego Technical Tour.

San Diego Metropolitan Transit System for providing bus service for the Integrated Corridor Management (ICM)—Going Live in San Diego Technical Tour.

Caltrans District 11 for allowing a tour of their transportation management center.

ITE would also like to thank its sponsors:

Platinum
SMART Signal Technologies
Bronze
Siemens

Silver
Transoft Solutions

Bronze
SMART Signal Technologies, Inc.
ITE Networking Social
Monday, 6:00 p.m.–7:00 p.m., Pavilion

Join ITE in the Exhibit Pavilion immediately following Monday’s education sessions to mix and mingle with old friends and new, while perusing the exhibit floor.

Light fare will be served and each attendee will receive one drink ticket.

Admission ticket is included with full registrations; see p. 4. If you have a one day registration, or would like to purchase additional tickets for your guests, please visit the registration desk on Monday. Tickets are available for $40 each.

Breakfast and Lunch
Monday and Tuesday

**Breakfast**, 7:45 a.m.–8:30 a.m.
A convenient continental breakfast will be available for all attendees with full registrations on Monday and Tuesday. Monday’s breakfast will be held in Harbor Island Ballroom II and Tuesday’s will be held in the Harbor Island Ballroom Foyer.

**Lunch**, 12:30 p.m.–2:00 p.m.
Lunch will be available for all registrants on Monday and Tuesday in the exhibit Pavilion. Come enjoy lunch and take the time to meet with fellow attendees and exhibitors to discuss what’s happening in the industry.

Prospective Candidates for International Office Reception
Monday, 4:30 p.m.–6:00 p.m., Executive Center 1

Are you a Fellow member of ITE? Do you aspire to someday seek election as an International officer of the Institute? Or are you a Member or Fellow considering seeking election as an International Director representing your District on the International Board of Direction?

If so, join current members of the Nominating Committee and current International officers to better understand roles, time commitments, responsibilities and the process to become a candidate.

The Future is Now—A Forum to Gain Member Input on Needed ITE Programs and Services Roundtable
Tuesday, 2:00 p.m.–4:15 p.m., Harbor Island Ballroom II

Join ITE elected leaders and executive staff to discuss how ITE can adapt and add programs and services to meet your needs now and in the future.

YOU are ITE, and we need your input to make it the best ITE possible. Join us for the whole discussion, or just part—whatever works best for you.

The discussion will be summarized and posted to the ITE Community All Member Forum for further input after the Conference.

San Diego Integrated Corridor Management (ICM)
Executive Overview
Monday, 2:00 p.m.–2:30 p.m., Harbor Island Ballroom II

Learn about the upcoming demonstration and evaluation phase of the United States Department of Transportation’s ICM Research Initiative and how this research is helping to transform surface transportation.

Integrated Corridor Management (ICM)—Going Live in San Diego Technical Tour
Wednesday, 1:00 p.m.–5:00 p.m.

Highlights include stops at the Caltrans District 11 Transportation Management Center and Sabre Springs BRT Station, and a drive along San Diego’s ICM corridor. Check out the ICM session prior to the tour at 8:30 a.m.

Transportation Technology Mashup
Wednesday, 2:00 p.m.–4:00 p.m., Seabreeze I

This forum brings together technology and transportation professionals to discuss opportunities for using available data in the development of software and mobile applications to address safety, mobility, and planning needs. Discussion topics include identification of available data, user needs, data collection, and development opportunities.

Software developers, data aggregators, and users are strongly encouraged to attend.
session details

Plenary Session: A Conversation with Metropolitan Transportation Directors*
Recording of this session sponsored by Transoft Solutions Inc.
Monday, March 4, 8:30 a.m.-10:00 a.m.
Room: Harbor Island Ballroom II

Learning Objective: Discuss the progress and challenges of providing metropolitan mobility and livability while navigating the landscape of local politics.

Presider: Jeffrey A. Lindley, Associate Administrator for Operations, U.S. DOT-FHWA, Washington, DC, USA

Speakers:
Gary L. Gallegos, Executive Director, San Diego Association of Governments, San Diego, CA, USA
Wylie Bearup, Streets Transportation Director, City of Phoenix, Phoenix, AZ, USA
Juan C. Perez, Director of Transportation, Riverside County, Riverside, CA, USA

Communicating with the Public and Policy Makers: Active Show and Tell
Sponsored by the ITE Transportation Planning Council and ITE Public Agency Council
Monday, March 4, 11:00 a.m.-12:30 p.m.
Room: Harbor Island Ballroom I

Learning Objective: Discuss technology tools for public involvement and how transportation engineers and planners are involving stakeholders to implement successful projects.

Presider: Terry A. Little, Manager, Traffic Services, Ada County Highway District, Garden City, ID, USA

Speakers:
How To Work With Elected Officials To Achieve Success James R. Helmer, President, LightMoves, Ben Lomond, CA, USA
Dynamic 3D Visualization and Advanced Public Involvement Techniques Timothy Witsil, Reynolds, Smith & Hills Inc., Tampa, FL, USA
Chicago Streets for Cycling

2020 Plan: Giving Stakeholders Ownership to Achieve Success
Mark de la Vergne, Associate/Project Manager, Sam Schwartz Engineering, Chicago, IL, USA

Communicating Through Social Media Jeffrey R. Young, Assistant County Engineer, McHenry County, Woodstock, IL, USA

Roundabout Operations Software Showcase
Sponsored by the ITE Roundabout Committee
Monday, March 4, 11:00 a.m.-12:30 p.m.
Room: Harbor Island Ballroom II

Learning Objective: Showcase and discuss software packages that can assist planners and designers in roundabout operations and design.

Presider: Hillary N. Isebrands, Safety Engineer, U.S. DOT-FHWA, Lakewood, CO, USA

Speakers:
Modeling Roundabouts with PTV Vissim and Vistro Karen Giese, Vice President Product Management, PTV America, Portland, OR, USA
SIDRA INTERSECTION Roundabout Demo Howard McCulloch, Roundabout Design Specialist, NE Roundabouts, Averill Park, NY, USA
TORUS Roundabout Demo Steven Chan, Senior Product Engineer, Transoft Solutions Inc., Richmond, BC, Canada
✓ Synchro and SimTraffic Roundabout Demo Michael T. Trueblood, Senior Traffic Engineer, Trafficware, Sugar Land, TX, USA
RODEL Roundabout Demo Mark T. Johnson, Principal Transportation Engineer, MTJ Engineering LLC, Madison, WI, USA

Trends in Meeting Metropolitan Mobility*
Sponsored by the ITE Transportation Planning Council
Monday, March 4, 11:00 a.m.-12:30 p.m.
Room: Seabreeze I

Learning Objective: Discuss the growing diversity of transportation demand management offerings to improve metropolitan mobility.

Presider: Eric Schreffler, Consultant, ESTC, San Diego, CA, USA

Speakers:
How TDM is Becoming Part of Local Planning in Southern California Peter J. Valk, President, Transportation Management Services, Pasadena, CA, USA

TDM and Transportation Planning in the San Diego Region Antoinette Meier, Associate Transportation Planner, San Diego Association of Governments, San Diego, CA, USA

A New Way Forward with Carsharing Michael Cully, Location Manager—San Diego, car2go N.A. LLC, San Diego, CA, USA

Greater Los Angeles Bike Sharing Program Derek Fretheim, Chief Operating Officer, Bike Nation, Tustin, CA, USA

Executive Overview: Integrated Corridor Management Demonstration and Evaluation
Monday, March 4, 2:00 p.m.-2:30 p.m.
Room: Harbor Island Ballroom II

Learning Objective: Learn about the demonstration and evaluation phase of the United States Department of Transportation’s ICM Research Initiative and how this research is helping to transform surface transportation and will change the way travelers move through key metropolitan corridors for the better by improving reliability, emissions, and overall traveler experience.

Speakers:
Jeffrey A. Lindley, Associate Administrator for Operations, U.S. DOT-FHWA, Washington, DC, USA
J. Alex Estrella, Senior Transportation Planner, San Diego Association of Governments, San Diego, CA, USA
Koorosh Olyai, Assistant Vice President of Mobility Programs, Dallas Area Rapid Transit, Dallas, TX, USA

* Pending AICP CM-approved training
Bike Lane Markings...Mitigating Conflicts or Confusing Bicyclists and Drivers? Roundtable
Monday, March 4, 2:45 p.m.-4:15 p.m.
Room: Harbor Island Ballroom I

Learning Objective: Engage in peer-to-peer exchange on challenges, opportunities, best practices, technical resources and professional collaboration. Action items will be identified.

Facilitators:
Winston Chou, Transportation Engineer, City of Vancouver, Vancouver, BC, Canada
Matt T. Benjamin, Regional Manager for Pedestrian and Bicycle Services, Fehr & Peers, Los Angeles, CA, USA

Transportation in Community Health Impact Assessments Roundtable
Monday, March 4, 2:45 p.m.-4:15 p.m.
Room: Seabreeze I

Learning Objective: Engage in peer-to-peer exchange on challenges, opportunities, best practices, technical resources and professional collaboration. Action items will be identified.

Facilitators:
Carmen L. Cutter, Deputy Director, Active Living Research, San Diego, CA, USA
Richard E. Beaubien, Managing Director, Beaubien Engineering LLC, Troy, MI, USA

LED Signals Fading Away—Lifecycle Challenges and Solutions Roundtable
Monday, March 4, 2:45 p.m.-4:15 p.m.
Room: Harbor Island Ballroom III

Learning Objective: Engage in peer-to-peer exchange on challenges, opportunities, best practices, technical resources and professional collaboration. Action items will be identified.

Facilitators:
Robert C. Wunderlich, Director, Center for Transportation Safety, Texas A&M Transportation Institute, Dallas, TX, USA
Michelle S. Birdsall, Public Information Manager, Institute of Transportation Engineers, Washington, DC, USA

Staff Downsizing: Opportunity or Threat? Conversation Circle
Sponsored by the ITE Public Agency Council and ITE Consultant’s Council
Monday, March 4, 4:30 p.m.-6:00 p.m.
Room: Seabreeze II

Learning Objective: Identify the external forces, potential threats and opportunities related to the changing working environment in local government.

Panel Moderator: Wayne K. Tanda, Principal Consultant, Municipal Resource Group LLC, Morgan Hill, CA, USA

Panelists:
Consultant Perspective Alfred A. Guebert, Principal, AAGuebert & Associates, Calgary, AB, Canada
Urban County Perspective William J. Winter, Deputy Director of Public Works, County of Los Angeles, Alhambra, CA, USA
City Perspective Jim Ortbal, Assistant Director of Transportation, City of San Jose, San Jose, CA, USA

Using Parking Technology for Better Operations
Sponsored by the ITE Parking Council
Monday, March 4, 4:30 p.m.-6:00 p.m.
Room: Harbor Island Ballroom I

Learning Objective: Discuss recent applications of technology to support municipal parking management and develop understanding of its appropriate use.

Presider: Ransford S. McCourt, President, DKS Associates, Portland, OR, USA

Speakers:
Moving to a Rational Curb Management Strategy Driven by Communities AND by Data David Stein, Director, Community Initiatives, New York City DOT, New York, NY, USA
LA Express Park: Parking Guidance and Management through Real-time Technology Daniel E. Mitchell, Senior Transportation Engineer, City of Los Angeles DOT, Los Angeles, CA, USA
Parking in Santa Monica – New Policies, Operations, Technologies, Applications and Approaches Sam Morrissey, City Traffic Engineer, City of Santa Monica, Santa Monica, CA, USA
The Right Size for the Right Price: City of Seattle’s (relatively low-cost) On-Street Performance-Based Parking Program Mary Catherine Snyder, Parking Strategist, City of Seattle DOT, Seattle, WA, USA

Ratcheting Up Roundabouts
Sponsored by the ITE Roundabout Committee
Monday, March 4, 4:30 p.m.-6:00 p.m.
Room: Harbor Island Ballroom III

Learning Objective: Discuss ways to advance public acceptance of roundabouts and gain practical design tips for bettering roundabout designs.

Presider: Rachel Price, Project Engineer, Reid Middleton, Everett, WA, USA

Speakers:
Sound Bites that Sell Roundabouts Phil Rust, Assistant Traffic Engineer, Ada County Highway District, Boise, ID, USA
Curbing Details Gary W. Schatz, Assistant Director, City of Austin, Austin, TX, USA
Enhancing Livability with Roundabouts Michael T. McBride, City Engineer, City of Carmel, Carmel, IN, USA
Understanding How Roundabouts Fail Victor L. Salemann, Senior Associate, David Evans and Associates, Bellevue, WA, USA
Innovative Application of the Highway Capacity Manual

Sponsored by the ITE Traffic Engineering Council and ITE SimCap Group

Tuesday, March 5, 8:30 a.m.-10:00 a.m.
Room: Harbor Island Ballroom I

Learning Objective: Learn about the state of the practice in the application of the 2010 Highway Capacity Manual (HCM) and discuss preparation for pending changes to HCM

Presider: Richard G. Dowling, Senior Principal Engineer, Kittelson & Associates, Oakland, CA, USA

Speakers:
Adoption of the HCM2010 in Pennsylvania: Lessons Learned  
David A. Petrucci, Traffic Discipline Leader, Borton-Lawson, Bethlehem, PA, USA

Incorporating Reliability into the HCM2010 - Freeway Facilities Methodology  
Bastian J. Schroeder, Assistant Director Highway Systems, ITRE, North Carolina State University, Raleigh, NC, USA

Trip Generation: The Next Wave of Data Input and Analysis*  
David Hale, Assistant in Engineering, University of Florida, McTrans Center, Gainesville, FL, USA

Ashley B. McLain, Project Engineer, Palmer Engineering, Winchester, KY, USA

✓ Trip Generation Updates: Passby and Diverted Trips  
Eric J. Tripi, Director of Operations, Iteris Inc., Mount Pleasant, SC, USA

Mixed-use Development and Internal Trip Capture  
Patrick A. Gibson, President, Gibson Transportation Consulting Inc., Los Angeles, CA, USA

✓ Multimodal Trip Generation: How do I Get to the San Diego Convention Center?  
Stephen Cook, Associate, Fehr & Peers, San Diego, CA, USA

Tapping Data Sources for Decision Making  
Tuesday, March 5, 8:30 a.m.-10:00 a.m.
Room: Seabreeze I

Learning Objective: Identify opportunities and data available to enhance transportation decision making.

Presider: John J. Fanny, Principal/President/CEO, Grice Consulting Group LLC, Atlanta, GA, USA

Speakers:
✓ Meeting The Data Needs In A Data Intensive World  
Michael A. Knodler Jr., Associate Professor, University of Massachusetts-Amherst, Amherst, MA, USA

Changing Role of TMCs  
Abbas Mohaddes, President & CEO, Iteris Inc., Santa Ana, CA, USA

✓ Origin-Destination and Travel Time Measurement using Bluetooth Technology: Results and Lessons Learned  
Kelly D. Parma, Senior Project Manager, Lee Engineering LLC, Dallas, TX, USA

The Future is Now...A Forum to Gain Member Input on Needed ITE Programs and Services  
Tuesday, March 5, 2:00 p.m.-4:15 p.m.
Room: Harbor Island Ballroom II

Learning Objective: Engage in peer-to-peer exchange on challenges, opportunities, best practices, technical resources and professional collaboration. Action items will be identified.

Facilitators:
Pei-Sung Lin, Program Director, Center for Urban Transportation Research, University of South Florida, Tampa, FL, USA
Paul Olson, ITS Technology Engineer, U.S. DOT-FHWA, Washington, DC, USA

Presider: Richard E. Backlund, Associate Division Administrator, U.S. DOT-FHWA - California Division, Los Angeles, CA, USA

Speakers:
Chris Kochitizky, Associate Director for Program Development, Division of Emergency and Environmental Health Services, Center for Disease Control, Atlanta, GA, USA
James F. Sallis, Director, Active Living Research, San Diego, CA, USA
Jerry Dobrovolny, Director of Transportation, City of Vancouver, BC, Canada

Change Intervals Uniformity, Safety, Driver Expectations and Speed Camera Issues Roundtable  
Tuesday, March 5, 2:45 p.m.-4:15 p.m.
Room: Harbor Island Ballroom I

Learning Objective: Engage in peer-to-peer exchange on challenges, opportunities, best practices, technical resources and professional collaboration. Action items will be identified.

Facilitators:
Pei-Sung Lin, Program Director, Center for Urban Transportation Research, University of South Florida, Tampa, FL, USA
Paul Olson, ITS Technology Engineer, U.S. DOT-FHWA, Washington, DC, USA

The Future is Now...A Forum to Gain Member Input on Needed ITE Programs and Services  
Tuesday, March 5, 2:45 p.m.-4:15 p.m.
Room: Harbor Island Ballroom II

Learning Objective: Engage in peer-to-peer exchange on challenges, opportunities, best practices, technical resources and professional collaboration. Action items will be identified.

Facilitators:
Zaki Mustafa, Executive Officer, Project Delivery, City of Los Angeles DOT, Los Angeles, CA, USA

* Pending AICP CM-approved training
Public Health Benefits of Active Transportation: Where Do We Go From Here? Conversation Circle*
Sponsored by the ITE Pedestrian and Bicycle Council
Tuesday, March 5, 2:45 p.m.-4:15 p.m.
Room: Seabreeze I

Learning Objective: Discuss various cycling networks and the role of parking in making cycling a practical method of traveling.

Presider: John P. Keating, Principal, Linscott, Law & Greenspan Engineers, San Diego, CA, USA

Speakers:
✓ Implementation of the HSM—A Federal Perspective John McFadden, Safety / Geometric Design Engineer, U.S. DOT-FHWA, Baltimore, MD, USA
✓ Implementation of the HSM—Local Perspective Jennifer Marandino, Team Leader—Capital Programming and Safety, South Jersey Transportation Planning Organization, Vineland, NJ, USA

Accommodating Bicycles from Policy to Operations
Sponsored by the ITE Parking Council and Siemens
Tuesday, March 5, 4:30 p.m.-6:00 p.m.
Room: Harbor Island Ballroom III

Learning Objective: Discuss various cycling networks and the role of parking in making cycling a practical method of traveling.

Presider: John P. Keating, Principal, Linscott, Law & Greenspan Engineers, San Diego, CA, USA

Speakers:
✓ Implementation of the HSM—A Federal Perspective John McFadden, Safety / Geometric Design Engineer, U.S. DOT-FHWA, Baltimore, MD, USA
✓ Implementation of the HSM—Local Perspective Jennifer Marandino, Team Leader—Capital Programming and Safety, South Jersey Transportation Planning Organization, Vineland, NJ, USA

Incorporating the Human Factor into Traffic Incident Management
Sponsored by the ITE Parking Council and Siemens
Tuesday, March 5, 4:30 p.m.-6:00 p.m.
Room: Harbor Island Ballroom III

Learning Objective: Discuss various cycling networks and the role of parking in making cycling a practical method of traveling.

Presider: John P. Keating, Principal, Linscott, Law & Greenspan Engineers, San Diego, CA, USA

Speakers:
✓ All-Weather Paint Field Evaluation Deborah S. McAvoy, Associate Professor, Ohio University, Athens, OH, USA
✓ Applying Vehicular Parking Principles to Bicycle Parking and What ITE Can Do Maggie O’Mara, Bicycle and Pedestrian Design Reviewer, California DOT, Sacramento, CA, USA

Sponsored by the ITE Traffic Engineering Council and the ITE Transportation Safety Council
Wednesday, March 6, 8:30 a.m.-10:00 a.m.
Room: Harbor Island Ballroom I

Learning Objective: Discuss tools and resources developed by the SHRP 2 Program supporting the integration of environmental, economic, and community requirements to expedite key decisions in the highway planning process.

SHRP 2—Capacity Products for Delivering Highway Planning Decisions
Sponsored by the Strategic Highway Research Program 2
Wednesday, March 6, 8:30 a.m.-10:00 a.m.
Room: Seabreeze I

Learning Objective: Discuss tools and resources developed by the SHRP 2 Program supporting the integration of environmental, economic, and community requirements to expedite key decisions in the highway planning process.

✓ included in online compendium
session details

**Presider:** David J. Plazak, Senior Program Officer, SHRP 2 Program, Transportation Research Board, Washington, DC, USA

**Speakers:**
- *Improved Project Economic Analysis Tools* Glen Adam Winston, Economic Analyst, Economic Development Research Group, Boston, MA, USA
- *Integrated Advanced Highway Travel Demand Models* Krista L. Jeannotte, Principal, Cambridge Systematics Inc., Oakland, CA, USA
- *Analysis Toolbox for Smart Growth Development and Congestion Relief* Maren L. Outwater, Vice President, Resource Systems Group Inc., Milwaukee, WI, USA
- *Integrating Conservation, Planning and Environmental Permitting into an Ecosystem Approach* Marie Venner, Venner Consulting, Lakewood, CO, USA

**Presider:** J. Alex Estrella, Senior Transportation Planner, San Diego Association of Governments, San Diego, CA, USA

**Speakers:**
- *SANDAG ICM Overview* James Dreisbach-Towle, Principal Technology Program Manager, San Diego Association of Governments, San Diego, CA, USA
- *Transit Perspective* Devin Braun, Senior Transportation Planner, San Diego Metropolitan Transit System, San Diego, CA, USA
- *Local Agency Perspective* Zoubir A. Ouadah, Senior Traffic Engineer, Development Services, City of Poway, Poway, CA, USA
- *Caltrans District 11 Perspective* Shahin Sepassi, ITS Program Manager, Caltrans District 11, San Diego, CA, USA

**Integrated Corridor Management (ICM)—Going Live in San Diego**

Wednesday, March 6, 8:30 a.m.-10:00 a.m.
Room: Harbor Island Ballroom III

**Learning Objective:** Discuss the San Diego region’s deployment of a high-tech ICM system for the I-15 corridor.

**Plenary: Toward Zero Deaths—Progress, Challenges, and Next Steps**

Wednesday, March 6, 10:30 a.m.-12:00 p.m.
Room: Harbor Island Ballroom II

**Learning Objective:** Explore the programmatic vision, progress and best practices for implementation of the Toward Zero Deaths initiative.

**Transportation Technology Mashup***

Wednesday, March 6, 2:00 p.m.-4:00 p.m.
Room: Seabreeze I

This forum will bring together technology and transportation professionals to discuss opportunities for using available data in the development of software and mobile applications to address safety, mobility and planning needs. Discussion topics will include identification of available data, user needs, data collection and development opportunities. Software developers, data aggregators and users are strongly encouraged to attend.

---

**Earning Professional Development Hours and IACET Continuing Education Units**

The technical content of this meeting meets most state and provincial registration board requirements for P.E/P.Eng. licensure including Professional Transportation Planner® (PTP), and Professional Traffic Operations Engineers® (PTOE) certification renewals. For sessions approved for APA/AICP Certification Maintenance (CM), please see [www.ite.org/conference](http://www.ite.org/conference).

To successfully earn PDH/IACET CEU for sessions, tours and/or papers published as part of the *ITE 2013 Technical Conference and Exhibit Online Compendium of Technical Papers*, you must complete an online conference evaluation.

The online evaluation link will be emailed after the conference and posted on the ITE web site. Be sure to update your ITE profile with your current email address to ensure receipt of the email. Please contact Nicola Tavares at + 202-785-0060 ext. 155 if you have questions about this process.

- Technical Sessions earn 1.5 PDH/0.2 IACET CEU for attendance or presentation per plenary, traditional technical sessions, conversation circles, and discussion panels.
- Technical tours earn 1 PDH per hour of attendance. Does not qualify for IACET CEU.
- Published papers earn 10 PDH per paper published as part of the online *ITE 2013 Technical Conference and Exhibit Compendium of Technical Papers*. Does not qualify for IACET CEU.

ITE and the ITE Educational Foundation (ITEEF) have been approved as Authorized Providers by the International Association for Continuing Education and Training (IACET), 1760 Old Meadows Rd., Suite 500, McLean, VA 22102 USA.

* Pending AICP CM-approved training

**NEW from SMART Signal Technologies, Inc.**

**iMonitor™**

Real Time Traffic Performance Measures for Signalized Arterial Corridors – For Traffic Agencies Everywhere

**iMeasure™**

Off-line Performance Measurement
Signal Timing Analysis and Reporting Tool – For Traffic Engineering Consultants

Works with ALL detector and controller types!

Write info@smartsignaltech.com for details!

SMART Signal Technologies, Inc. 1000 Westgate Dr., Suite 150, St. Paul, MN 55114
www.smartsignaltech.com
Advanced Transportation Concepts Inc., Booth 308
48290 Vista Calico
La Quinta CA 92253 USA
T: 760-777-9595, F: 760-777-9595
ext22@msn.com
www.highwayskymover.com
A revolutionary concept that allows municipalities to expand traffic flow over existing roadways using a combination of unique design, energy and renewable power combined in a viable "green" transportation solution. Now city planners can overcome traffic gridlock with the most efficient vehicle ever developed. Efficient to operate and build, the Highway Sky Mover dramatically reduces startup and operational costs seamlessly moving thousands of passengers through existing cityscapes.

All Traffic Solutions, Booth 409
3100 Research Dr.
State College PA 16805 USA
lmiles@intuitivecontrols.com
www.alltrafficsolutions.com
All Traffic Solutions designs and manufactures traffic safety products including radar speed displays, variable message signs and the web-based management tools that are changing how organizations use this equipment. By integrating wireless connectivity and cloud technology into all of its products, the company provides an innovative way for municipalities and corporations to increase their performance while reducing the resources needed to fulfill their traffic management responsibilities.

Campbell Co., Booth 611

T: 888-387-3828, F: 330-336-7650
mmiller@maxcellinnerduct.com
www.maxcell.us

MaxCell a flexible, multi-celled fabric innerduct solution that provides cable pathway functionality at a fraction of the cost, labor, energy, space and carbon emissions versus rigid HDPE innerduct. Over 250 million feet of MaxCell innerduct has been successfully installed around the globe. MaxCell the most flexible most sustainable innerduct!
exhibitor guide

**McCain, Inc**, Booth 300
2365 Oak Ridge Way
Vista CA 92081 USA
T: 760-734-5086, F: 760-597-5082
treddan@mccain-inc.com
www.mccain-inc.com

McCain Inc. is a leading manufacturer of advanced traffic control equipment, intelligent transportation solutions, and parking guidance systems. Founded in 1987, McCain leverages years of experience to provide comprehensive solutions and top quality products that promote urban mobility and reduce congestion for the cities of today and tomorrow.

**Microhard Systems Inc**, Booth 603
150 Country Hills Blvd, NW
Calgary AB T3K 5P3 Canada
T: 403-248-0028, F: 403-248-2762
dcarter@microhardcorp.com
www.microhardcorp.com

Microhard manufactures a full line of wireless serial and IP equipment that will easily extend your existing interconnect system or create stand alone networks. Our full line of robust, reliable, broadband equipment will provide you with consistent, high quality video feeds. With P-P and P-MP, setups, Microhard can help you design the wireless solution to reach the most remote locations. We offer 2.4 GHz, 5.8 GHz and the advantageous 4.9 GHz Public Safety band.

**Mivision Technologies Inc**, Booth 605
148 Manitou Dr. Ste. 101
Kitchener ON N2L 1L3 Canada
T: 877-646-8476, F: 866-413-2928
chiker@mivision.com
www.mivision.com

Mivision is a leading provider of traffic data management solutions. Our Traffic Data on Demand solution provides a hassle-free way to request, receive and manage traffic data for TMCs, ADTs, roundabout studies and gap studies, completely online. There’s no need to phone data collectors—leave the coordination logistics to us. Standardized pricing, nationwide availability, standard turnaround times, and accurate data keep your projects on time and budget, and provide you with peace of mind.

**Myers Power Products**, Booth 509
2950 E. Philadelphia St.
Ontario CA 91761 USA
T: 909-923-1800, F: 909-923-1806
bob.young@myerspowerproducts.com
www.myerspowerproducts.com

Myers Power Products manufactures fully integrated UPS/battery backup systems for traffic and emergency signage applications including traffic lights, LED signals, video monitoring, overhead LED signage and toll applications. Myers Power also manufactures traffic control, UPS and TelCo cabinets; and metered and un-metered service pedestals.

**Polara Engineering Inc**, Booth 309
9153 Stellar Ct.
Corona CA 92883 USA
T: 714-521-0900-131, F: 714-521-5587
lmac@polara.com
www.Polara.com

Polara, an ISO 9001:2008 registered company, is the leading manufacturer of accessible pedestrian signals (APS) and ADA push buttons. Our products are the only ped products on the market that meet or exceed rigorous specs certified by an independent lab. The Navigator EZ Comm APS is a full-featured system that has both audible and vibro-tactile features that give the ped information at every phase of the walk cycle, allowing agencies the flexibility they need to meet the needs of their citizens.

**Proxim Wireless**, Booth 508
1561 Buckeye Dr.
Milpitas CA 95035 USA
T: 408-383-7634
hkaur@proxim.com
www.proxim.com

Proxim Wireless (OTCQX: PRXM) is a leader in end-to-end broadband wireless systems delivering the quadruple play data, voice, video, and mobility to all organizations. Proxim’s portfolio of point-to-point, point-to-multipoint/WiMAX, Wi-Fi Mesh and WLAN products enable applications including wireless video surveillance, intelligent traffic systems (ITS), last-mile connectivity, enterprise WLANs and cellular backhaul.

**PTV Group**, Booth 307
9755 SW Barnes Rd., Ste. 550
Portland OR 97225 USA
T: 503-297-2556, F: 503-297-2230
joey.pless@ptvgroup.com
vision-traffic.ptvgroup.com/en-us

PTV Group provides the Vision Traffic Suite software products PTV Vissim, Vistro, Visum, and Viswalk. The Vision Traffic Suite is the worldwide leader in software-based multi-modal planning, traffic engineering, and traffic, transit, and pedestrian simulation. We also bring you industry-leading support, training, and services related to the Vision Traffic Suite.

**Quadstone Paramics**, Booth 607
39 Melville St.
Edinburgh EH375F UK
T: 441-312-4031-02
kristen.dorcey-joyce@pb.com
www.params-online.com

Quadstone Paramics’ traffic and pedestrian simulation software is used by transport professionals world wide to design efficient, economical, driver and pedestrian friendly transportation infrastructure allowing assessment of current and future year traffic conditions, detailed reporting of key MOE’s and high definition presentations to non-technical stakeholders.

**RAD Data Communications**, Booth 608
900 Corporate Dr.
Mahwah NJ 07430 USA
T: 201-529-1100, F: 201-529-5777
erin_c@rad.com
www.radusa.com

Established over 30 years ago, RAD Data Communications is an award-winning manufacturer of cost-effective access and backhaul solutions. Its leading-edge technology, strict adherence to quality standards, and environmentally friendly operations, together with a corporate culture that encourages long-term relationships with customers, channels, suppliers, and employees, combine to make RAD the perfect partner for all your communications needs.

**Radarsign LLC**, Booth 513
1095 Windward Ridge Pkwy., Ste. 150
Alpharetta GA 30005 USA
T: 678-965-4814, F: 678-278-1256
lleblanc@radarsign.com
www.radarsign.com

Radarsign LLC offers the only armored radar speed sign on the market today. Designed from the ground up to be reliable with unmatched viewability, our radar speed signs are effective at traffic calming, and versatile enough to mount anywhere. AC, solar, and mobile battery models available. School zone beacon solutions are also available as stand-alone systems, or integrated with our radar speed signs.

**RBF Consulting**, Booth 212
14725 Alton Pkwy.
Irvine CA 92618 USA
T: 949-855-3657, F: 949-837-8007
www.radusa.com

RBF Consulting provides the only fully integrated UPS/battery backup systems for traffic and emergency signage applications including traffic lights, LED signals, video monitoring, overhead LED signage and toll applications. RBF Consulting also manufactures traffic control, UPS and TelCo cabinets; and metered and un-metered service pedestals.
Skyline's employees are committed to providing industry-best solutions and service to our customers by maintaining ISO 9001 Certification. You can be assured that each and every sign has passed a stringent quality assurance process and is built to last for many years.

TESCO Controls Inc., Booth 408
8440 Florin Rd.
Sacramento CA 95828 USA
T: 916-395-8800, F: 916-403-0013
wsunner@tescocontrols.com

Based in Sacramento, California since 1972. Tesco Controls, is a 100% employee owned, American made manufacturer for the water, wastewater, traffic and electrical utility industries. The TESCO Pedestal product line provides a cost-effective solution for street lighting, park lighting, irrigation, and battery backup systems for traffic signal installations.

TKH Security Solutions USA Inc., Booth 200
12920 Cloverleaf Center Dr.
Germantown MD 20874 USA
T: 301-444-2200, F: 301-444-2299
a.fleck@tkhsecurity.com
www.tkhsecurity.com

TKH Security Solutions is a global supplier of advanced video surveillance solutions, including IP cameras, video servers/codecs, network video recorders, fiber transmission equipment, video management and video analytics software. We deliver complete solutions for traffic monitoring and the security of airports, casinos, prisons, utilities, public transit, hospitals, and corporate campuses. TKH Security Solutions markets its solutions under the Siqura, Optelecom and Diva brand names.

Trafficware, Booth 600
522 Gillingham Blvd.
Sugar Land TX 77487-0765 USA
T: 281-240-7233, F: 281-240-7238
melissaelder@trafficware.com
www.trafficware.com

Trafficware is committed to using technology, hard work, and a customer-centric attitude to solve the important problems facing our public agency customers and the citizens that travel their streets. The Trafficware 360° Solution provides software tools needed to simulate and optimize traffic prior to deployment; hardware to control traffic on the street; and the central management system to collect data and manage agency-wide operations.

Trafficon USA, Booth 400
10161 Park Run Dr., Ste. #150
Las Vegas NV 89145
