Expert Witness Information Notebook

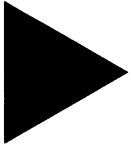

© 1999 Institute of Transportation Engineers

ISBN No: 0-935403-37-X; IR-099

Posted 7/9/03

This publication was reprinted in 2002 with the following changes:

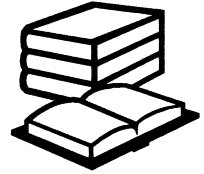

- Page 1–8, should read: *1. Duty—It must be proven that the defendant owes a legal duty to the plaintiff which is the easiest to prove.*
- Page 1–17, the correct heading is *Notice of Claim.*
- The bibliography on the following pages is the updated version.

Bibliography

Accident investigation/reconstruction

Backaitis, Editor. *Accident Reconstruction Technologies: Pedestrians and Motorcycles in Automotive Collisions*, PT-35, SAE. Warrendale, Pa.: 1990.

Backaitis, Editor. *Reconstruction of Motor Vehicle Accidents—A Technical Compendium*, PT-34, SAE. Warrendale, Pa.: 1989.

Baker, J.S. and L.B. Fricke. *The Traffic Accident Investigation Manual*. Evanston, Ill.: Northwestern University Traffic Institute, 1986.

Bohan and Damask, Editors. *Forensic Accident Investigation: Motor Vehicles*. Charlottesville, Va.: Michie Butterworth, 1995.

Brown, J.F. and K.S. Obenski. *Forensic Engineering Reconstruction of Accidents*. Springfield, Ill: Charles C. Thomas Publisher, 1990.

Carper, K.L., Editor. *Forensic Engineering*. New York, N.Y.: Elsevier Science Publishing Co., Inc., 1989.

Collins, J.C. and J.L. Morris. *Highway Collision Analysis*. Springfield, Ill.: Charles C. Thomas Publisher, 1967.

Damask, A.C. and J.N. Damask. *Injury Causation Analyses: Case Studies and Data Sources*. Charlottesville, Va.: The Michie Company, 1990.

Damask, A.C. and J.N. Damask. *Injury Causation Analyses: Case Studies and Data Sources, Volume 2—The Limits of Safety*. Charlottesville, Va.: The Michie Company, 1993.

Eubanks, J. *Pedestrian Accident Reconstruction*. Tucson, Ariz.: Lawyers & Judges Publishing Company, 1994.

Fricke, L.B. *Traffic Accident Reconstruction*. Evanston, Ill.: Northwestern University Traffic Institute, 1990.

Green, J.M., P.F. Hill, and D. Hayduk. *Bicycle Accident Reconstruction and Litigation*, Fourth Edition. Tucson, Ariz.: Lawyers & Judges Publishing Company, 1996.

Limpert, R. *Motor Vehicle Accident Reconstruction and Cause Analysis*, Fourth Edition. Charlottesville, Va.: The Michie Company, 1994.

Lofgren, M.J. *Handbook for the Accident Reconstructionist*, Third Edition. Fla.: Institute of Police Technology and Management, University of North Florida, 1986.

Loumiet, J.R. and W.G. Jungbauer. *Train Accident Reconstruction and FELA & Railroad Litigation*. Tucson, Ariz.: Lawyers & Judges Publishing Company, 1995.

Obenski, K. *Motorcycle Accident Reconstruction: Understanding Motorcycles*. Tucson, Ariz.: Lawyers & Judges Publishing Company, 1994.

Reizes, H. *The Mechanics of Vehicle Collisions*. Springfield, Ill.: Charles C. Thomas Publisher, 1973.

Rivers, R.W. *Traffic Accident Investigators' Handbook*. Springfield, Ill.: Charles C. Thomas Publisher, 1980.

Engineer as a witness or expert witness

Babitsky, Steven and Mangraviti, James J. Jr. Esq. "How to Excel During Cross-Examination—Techniques for Experts That Work," Falmouth, Mass.: SEAK, Inc., 1997.

Chadda, H.S. and T.E. Mulinazzi. "The Traffic Engineer as an Expert Witness," *ITE Journal*. Washington, D.C.: Institute of Transportation Engineers, March 1987, pp. 37–40.

Matson, J.V. *Effective Expert Witnessing: A Handbook for Technical Professionals*. Chelsea, Mich.: Lewis Publishers, 1990.

Poynter, D. *The Expert Witness Handbook: Tips and Techniques for the Litigation Consultant*. Santa Barbara, Calif.: Para Publishing, 1987.

Sunar, D.G. *The Expert Witness Handbook—A Guide for Engineers*, Second Edition. San Carlos, Calif.: Professional Publications, 1989.

Tort liability

Glennon, J.C. *Roadway Defects and Tort Liability*. Tucson, Ariz.: Lawyers & Judges Publishing Company, Inc., 1996.

Kuhlman, R.S. *Killer Roads: From Crash to Verdict*. Charlottesville, Va.: The Michie Company, 1986.

"Legal Implications of Highway Department's Failure to Comply with Design, Safety or Maintenance Guidelines," *NCHRP Research Results Digest*, Digest No. 129. Washington, D.C.: Transportation Research Board, October 1981.

"Legal Problems Arising Out of Highway Programs," *NCHRP Research Results Digest*, Digest No. 156. Washington, D.C.: Transportation Research Board, May 1986.

Lewis, R.M. *Practical Guidelines for Minimizing Tort Liability*, National Cooperative Highway Research Program Synthesis 106. Washington, D.C.: NCHRP, 1983.

Pivnik, S., J.B. Humphreys, and D.C. Oliver. *Traffic Improvements—Legal Aspects and Liability*. Washington, D.C.: Institute of Transportation Engineers, 1980.

Turner, D.S., Editor. *Seminar on Highway Tort Liability*, Second Edition, TSM Report 114–88. The University of Alabama, October 1988.

Zegeer, C.V. *Methods for Identifying Hazardous Highway Elements*, NCHRP Synthesis of Highway Practice 128. Washington, D.C.: Transportation Research Board, November 1986.

Human factors

Alexander, G. and Lunenfeld, H. *Driver Expectancy in Highway Design and Traffic Operations*. Washington, D.C.: Federal Highway Administration, 1986.

Alexander, G. and Lunenfeld, H. *Positive Guidance in Traffic Control*. Washington, D.C.: Federal Highway Administration, 1975.

Allen, M.J., B.S. Abrams, A.P. Ginsburg, and L. Weintraub. *Forensic Aspects of Vision and Highway Safety*. Tucson, Ariz.: Lawyers & Judges Publishing Company, Inc., 1996.

Dewar, Robert E. and Olson, Paul L. *Human Factors in Traffic Safety*. Tucson, Ariz.: Lawyers and Judges Publishing Co, Inc., 2002.

“Highway Visibility,” *Transportation Research Board Special Report 134*. Washington, D.C.: TRB, 1973.

Olson, P.L. *Forensic Aspects of Driver Perception and Response*. Tucson, Ariz.: Lawyers & Judges Publishing Company, Inc., 1996.

Shinar, D. *Psychology on the Road, The Human Factor in Traffic Safety*. New York, N.Y.: John Wiley & Sons, 1978.

Roadway design

Policies of the American Association of State Highway Officials (AASHO) and the American Association of State Highway and Transportation Officials (AASHTO):

A Policy on Highway Types (Geometric), 1940.

A Policy on Sight Distance for Highways, 1940.

A Policy on Intersections At Grade, 1940.

A Policy on Rotary Intersections, 1941.

A Policy on Grade Separations for Intersecting Highways, 1944.

A Policy on Design Standards—Interstate System, 1991.

A Policy on Design Standards—Interstate, Primary and Secondary Systems, 1945.

A Policy on Geometric Design of Rural Highways, 1954 and 1965.

A Policy on Geometric Design of Highways and Streets, 1984, 1990 and 2001.

A Policy on Arterial Highways in Urban Areas, 1957.

A Policy on Design Standards for Stopping Sight Distance, 1971.

A Policy on Design of Urban Highways and Arterial Streets, 1973.

Geometric Design Guide for Local Roads and Streets, 1970.

Guide for the Development of Bicycle Facilities, 3rd Edition, 1999.

Highway Design and Operational Practices Related to Highway Safety, 1967 and 1974.

Geometric Design Guide for Resurfacing, Restoration and Rehabilitation (RRR) of Highways and Streets, 1977.

Guidelines for Geometric Design of Very Low-Volume Local Roads (ADT \leq 400). American Association of State Highway and Transportation Officials, Washington DC, 2001.

Roadside Design Guide, 1988, 1996 and 2002.

Highway Safety Design and Operations Guide, 1997.

Roadway maintenance

AASHTO Maintenance Manual. Washington, D.C.: American Association of State Highway and Transportation Officials, 1976 and 1987.

“Influence of Roadway Surface Discontinuities on Safety,” Transportation Research Board State-of-the-Art Report 6. Washington, D.C.: TRB, 1984.

Street and Highway Maintenance Manual. American Public Works Association, 1985.

Traffic control devices

Manual on Uniform Traffic Control Devices for Streets and Highways. Washington, D.C.: Federal Highway Administration, 1988.

Manual on Uniform Traffic Control Devices, Millennium Edition, FHWA/ATSSA/ITE/AASHTO, Washington DC, 2001, Errata 1 (6/14/01) and Revision No. 1 (12/28/01).

Traffic Control Devices Handbook. Washington, D.C.: Federal Highway Administration, 1983.

Traffic Control Devices Handbook 2001. Washington, DC: Institute of Transportation Engineers, 2001.

Traffic Signing Handbook. Washington, D.C.: Institute of Transportation Engineers, 1997.

Roadside safety

A Guide for Accommodating Utilities Within Highway Right-of-Way. Washington, D.C.: American Association of State Highway and Transportation Officials, 1981.

A Guide for Erecting Mailboxes on Highways. Washington, D.C.: American Association of State Highway and Transportation Officials, 1984.

Fitzpatrick, J.F., M.N. Sohn, T.E. Silfon, and R.H. Wood. *The Law and Roadside Hazards*. Charlottesville, Va.: The Michie Company, 1975.

Guide for Selecting, Locating, and Designing Traffic Barriers. Washington, D.C.: American Association of State Highway and Transportation Officials, 1977.

Roadside Design Guide. Washington, D.C.: American Association of State Highway and Transportation Officials, January 1996.

The Traffic Safety Toolbox: A Primer on Traffic Safety. Washington, DC: Institute of Transportation Engineers, 1999.

The Yellow Book Road: The Failure of America's Roadside Safety Program. Washington, DC: Center for Auto Safety, 1974.

Turner, D.S. "A Primer on the Clear Zone," *Transportation Research Record 1122*. Washington, DC: Transportation Research Board, 1988.

Work zone safety

Lewis, R.M. *ATSSA Guide for Work Area Traffic Control*. American Traffic Safety Services Association, 1989.

Manual on Uniform Traffic Control Devices. Washington, DC: Federal Highway Administration, 1988, Part VI: "Standards and Guides for Traffic Controls for Street and Highway Construction, Maintenance, Utility, and Incident Management Operations."

Manual on Uniform Traffic Control Devices, Revision 3. Washington, DC: Federal Highway Administration, September 1993.

Pavement deficiencies

A State-of-the-Art Report: The Influence of Roadway Surface Discontinuities on Safety. Washington, DC: Transportation Research Board, 1984.

Dijks, A. "Influence of Tread Depth on Wet Skid Resistance of Tires," *Transportation Research Record 621*. Washington, DC: Transportation Research Board, 1977.

Ivey, D.L. and D.L. Sicking. "The Influence of Pavement Edge and Shoulder Characteristics on Vehicle Handling and Stability," *Transportation Research Record 1084*. Washington, DC: Transportation Research Board, 1988.

"Liability of the State for Injuries Caused by Obstruction or Defects in Highway Shoulder or Berm," *NCHRP Research Results Digest*, Digest No. 153. Washington, DC: Transportation Research Board, February 1986.

"Liability of the State for Injury-Producing Defects in Highway Surface," *NCHRP Research Results Digest*, Digest No. 135. Washington, DC: Transportation Research Board, July 1982.

Stoughton, R.L., et al. "Effect of Longitudinal Edge of Pavement Surface Drop-Off on Vehicle Stability," *Transportation Research Record 703*. Washington, DC: Transportation Research Board, 1979.

Rail-highway grade crossings

Accident/Incident Bulletin. Washington, DC: U.S. Department of Transportation, Federal Railroad Administration, published annually.

Tustin, B.H., H. Richards, H. McGee, and R. Patterson. *Railroad-Highway Grade Crossing Handbook*, Second Edition. Washington, DC: Federal Highway Administration, September 1986.
