The following index pages were added to the original 2001 printing when reprinted in 2002.
Index

A
Abbreviations, 109
Abdulsattar, H.N., et al., 91
Access Design for the Blind, 20
Accessible pedestrian signals (APSs) for the visually impaired
  advance limit lines at signalized intersections, 81
  automated pedestrian detection, 85–86
  defined, 105
  diagonal crossings, 83
  driveway signal and pedestrian crossing, 96
  flashing beacons at uncontrolled crossings, 45, 46
  Hawk crossings, 78
  intersection pedestrian signals, 72
  lagging pedestrian signal intervals, 80
  leading pedestrian signal intervals, 79
  midblock signal-controlled crossings, 69, 70
  Pelican crossings, 73
  porkchop islands, 91
  Puffin crossings, 75
  push buttons as signalized intersections, 84
  signalized intersections, 86–87
  Toucan crossings, 76
  uncontrolled crossings, 20
Accident statistics. See Statistics
Acronyms, 109
ADAAG. See Americans with Disabilities Act Accessibility Guidelines
Adelaide, Australia, detectable warning on curb ramp, 56
ADT. See Average daily traffic
Advance signs
  flashing amber lights on, 45
  STOP and YIELD limit lines at uncontrolled crossings, 34
  STOP limit lines at signalized intersections, 81–82, 96
Alternative treatments of pedestrian crossings, 2
  sources of information, 27–28
Amber lights. See specific types of lighting
Ambient lighting for drivers, 44
Americans with Disabilities Act Accessibility Guidelines (ADAAG), 54, 84, 86, 106
Animated eye signal displays at intersections, 88–89
Anti-skid pavement surfacing, 41, 73
Approach, defined, 105
APSs. See Accessible pedestrian signals (APSs) for the visually impaired
Arcadia, California, orange barrels at school crossing, 102
Areas for further study, 10
Arizona. See also specific cities
  school crossing signs, 99
Arlington, Virginia, right turn on red prohibition sign, 94
Austin, Texas
  flashing beacons, 46
  fluorescent yellow-green signs, 37, 38
  refuge island, 40
  sign for push button use, 45
  YIELD sign, 30
Australia. See also specific cities
  curb extensions, 48
  flashing beacons, 45
  installation guidelines, 24–26
  major traffic control items (MTCIs), 24–25
  minor traffic control items, 25
  pedestrian crossings without flashing lights, 25–26
  pedestrian operated signals, 26
  Pelican crossings, 26, 72, 73
  Puffin crossings, 26, 74, 75
  push buttons, 84
  refuge island, 40

125
Index

school crossing flags, 102
slip lane, 107
Toucan crossings, 76
Zebra-style crossings, 92
Australian Road Research Board, 73, 75
Automated detection of pedestrians
activating amber strobe lighting, 42–43
infrared and microwave, 85–86
Puffin crossings, 74
signalized intersections, 85–86
uncontrolled crossings, 51–52
wheelchair detection, 86
Average daily traffic (ADT), 65
defined, 105
and pedestrian-related collisions, 3, 6–8

B
Bacquie, P., et al., 54
Bandwidth, defined, 105
Barlow, J., and B.L. Bentzen, 55
Barnes dance. See Scramble pattern
Barrier curb, defined, 105
Beaverton, Oregon, raised crosswalks, 62
Belisha beacon, defined, 105
Bentzen, B.L., and L.S. Tabor, 84, 87
Bentzen, B.L., et al., 87
Bicycle crossings. See also Toucan crossings
fluorescent yellow-green signs, 37
in-pavement raised markers and, 43
Bicycle lanes, 48, 59
Bicycle/pedestrian shared crossings. See Toucan crossings
Blind pedestrians. See Visually impaired pedestrians
Blinking yellow signal. See Flashing beacons
Blood alcohol levels in fatally injured pedestrians, 5
Boulder, Colorado
textured paving in crosswalk, 50
YIELD portable/pole-mounted signs, 30
Bozeman, Montana, curb extensions, 48
Braking distance and anti-skid pavement surfacing, 41
Bulb out, defined, 105
Burden, D., and P. Lagerway, 48
Buses
nearside signals and, 97
speed cushions at residential crossings and, 60
flashing markers, 44
state highway study of markings and pedestrian collisions, 8–9
Cambridge, Massachusetts
chicanes with islands, 61
curb radius reduced, 53
raised intersections, 63
Canada. See also specific cities or provinces
advance YIELD sign and limit line, 34
flashing beacons, 45, 46, 47
installation guidelines, 20–23
pedestrian crossovers (PXOs), 45
push buttons, 84
right turn on red (RTOR), 82
signal-controlled pedestrian crossings, 4
split pedestrian crossovers (SPXOs), 54, 55
zigzag markings, 35
Capacity, defined, 105
Channelization, defined, 105
Chicanes with islands on residential streets, 60–61
Children. See also School crossings
area for further study, 10
Canada, determination of pedestrian volumes, 21
flag applications and, 37, 93
refuge islands and, 38
Christchurch, Australia, 24
Clearwater, Florida
animated eyes in pedestrian signal displays, 88, 89
roundabouts and automated pedestrian detection, 85
Cobblestone treatment and railings, 42
Coffin, A., and J. Morrall, 66
Collector street, defined, 105
Collisions. See Pedestrian collisions
Color treatment of speed cushions at residential crossings, 60
Construction zones and double-fine warning signs, 100
Countdown signals at intersections, 87–88
Critical volume (CV), defined, 105
Crossing opportunities, calculation of, 21–22
Crosswalks. See also Marked crosswalks; Raised crosswalks; Removal of crosswalks
defined, 105
Curb extensions, 103
defined, 105
signalized intersections, 89
uncontrolled crossings, 46–47
Curb radii reduced at uncontrolled crossings, 52–53
Curb ramp, defined, 105
Curbed islands to restrict left-turns, 56
Cycle time, defined, 105

C
Calabasas, California, chicanes with islands, 61
California. See also specific cities
fluorescent yellow-green signs, 37, 38
marked crosswalks, 7–8
microwave detectors to activate in-pavement
De Robertis, M., and M. Ridgway, 5, 6, 19
Delay, defined, 105
Denver, Colorado
diagonal crossings, 84
double-fine zone warning sign, 100
lane reductions, 48, 49
overhead signs at signalized intersections, 90
overhead signs warning of school-age pedestrians, 100, 101
Department of Environment, Transport, and the Regions (UK), 60, 61, 73, 87
Department of Transport (UK), 51
Design hour volume (DHV), defined, 105
Design speed (DS), defined, 105
Design width (DW), defined, 105
Detectable warning, defined, 105–106
Detectable warnings at uncontrolled crossings, 54–56
Detection of pedestrians. See Automated detection of pedestrians
Detours for part-time street closures, 102
Diagonal pedestrian crossings, 83–84
Disabled persons. See also Visually impaired pedestrians; Wheelchairs
area for further study, 10
Canada, determination of pedestrian volumes, 21
flag applications and, 37, 93
raised crosswalks and, 61–62
raised intersections and, 63
refuge islands and, 38, 39, 90
right turns on red and, 94
Divided highway, defined, 106
DON’T WALK
blinking yellow signal indications, 95
driveway signal and pedestrian crossing and, 96
flashing signal, 69
steady red signal, 70
Double-fine zones, school-related crossings, 100
Double-posted pedestrian signs at uncontrolled crossings, 32–33
Downtowns
curb extensions, 46
curb radius reduced, 53
diagonal crossings, 83
lighting at uncontrolled crossings, 44
midblock signal-controlled crossings with flashing red, 69
right turn on red prohibitions, 93
speed in, 103
textured surfaces in crosswalks, 50
Drainage
curb extensions and, 46, 47, 89
raised intersections and, 63
DRIVE Initiative, 74
Driveway signals at signalized intersections, 96
Dual wheelchair ramps at signalized intersections, 94–95
Dublin, Eire, pork chop island, 91

Edinburgh, Scotland, setback crosswalks, 57
Educational signs for pedestrian push-button signals, 80–81
Elderly. See Older pedestrians
Emergency vehicles and speed cushions, 60
England. See United Kingdom
Entry treatments at residential crossings, 62–63
Equivalent adult units, 21, 23
Europe. See also specific countries
accessible pedestrian signals, 87
nearside signals at signalized intersections, 96
pedestrian collision statistics, 5–6
Ewing, R., 47, 50, 53, 62, 63, 89
Exclusive pedestrian phase, defined, 106
Eyes animated in pedestrian signal displays, 88

Federal Highway Administration (FHWA) research, 1, 95, 103
Ferrara, Italy, nearside signals at signalized intersection, 97
Fillmore, California, street lighting, 45
Fines, double-fine warning sign, 100
Fitzpatrick, K., and H.A. Parham, 59
Flags
Australia school crossings, 102
signalized intersections, 93
uncontrolled crossings, 36–37
Flashing beacons
Australia, 25–26, 45
Hawk crossings, 77–78
school crosswalks, 101
uncontrolled crossings, 45–46, 121
yellow signal for pedestrians, 95–96
Fleck, J., 79
Florida. See also specific cities
countdown pedestrian signal, 88
Fluorescent yellow-green signs
with flashing beacons at school crosswalks, 101
school-related crossings, 100–101
uncontrolled crossings, 37
France, advisory device, 31
Index

G
Geometric design, defined, 106
Germany
marked crosswalks at uncontrolled locations, 65
pedestrian fatalities, 6
uncontrolled locations and marked crosswalks, 3
Glock, J.W., et al., 71, 77, 78
Glossary, 105–107
Grade, defined, 106
Great Britain. See United Kingdom
Greater London Council Road Safety Unit, 35
Green time, defined, 106

H
Habib, P., 36
Half signals, 45, 71, 77
Hannan, T.J., 79, 83
Hauger, J.S., et al., 55
Hawk crossings, 77–78
High-intensity activated crosswalk (Hawk) crossings, 77–78
High-visibility markings
left-turn lanes at signalized intersections, 92
uncontrolled crossings, 32
Zebra crossings, 32, 92
Hourly volume, defined, 106
Huang, H., et al., 43, 51
Hughes, R.G., 55
Hughes, R.G., et al., 86

I
In-pavement raised markers at uncontrolled crossings, 42–43
Infrared detection of pedestrians at intersections, 85–86. See also Automated detection of pedestrians
Installation guidelines, 19–26
accessible pedestrian signals for the visually impaired, 20
Australia, 24–26
Canada, 20–23
Ontario, 23
crossing traffic information, 24
drawbacks of minimal treatment, 19
Great Britain, 23–24
midblock crosswalks, 19
New Zealand, 24
pedestrian flows, 24
pedestrian volume determination, 21
road collisions, 24
site characteristics, 24
traffic control signals, 19–20, 23
United States, 19–20
vehicle flows, 24
vehicle traffic information, 24
Insurance Institute for Highway Safety; 94
Intelligent Transportation Systems (ITS), 104
Intersection, defined, 106
Intersection pedestrian signals (IPSS), 45–46, 71–72
Islands. See also Raised islands; Refuge islands
defined, 106
pork chop islands, 90–91
Italy, nearside signals at signalized intersection, 97
ITE Pedestrian and Bicycle Task Force, xv, 1, 27
ITE Traffic Engineering Council Technical Committee report, 43

J
Japan, tactile surfaces for visually impaired, 51

K
Katz, Okitsu, & Associates, 43
Kirkland, Washington
flags at pedestrian crossings, 37, 93
in-pavement raised markers, 43
Kittle, C., 37

L
Lagging pedestrian signal intervals, 80
Lalani, N., 39, 42, 44, 73, 75, 82, 97
Lalani, N., and R. Kochevar, 66
Lalani, N., and R.M. Elizer, 102
Lalani, N., and W. Baranowski, 81
Landscaping
curb extensions and, 46
lane reductions and, 48
Lane reductions at uncontrolled crossings, 48–49
Las Vegas, Nevada, staggered refuge islands, 54
Leading pedestrian signal intervals, 79
LEDs
animated eyes in pedestrian signal displays, 88
strobe lighting, 42
Left-turning vehicles
leading pedestrian signal intervals, 79
restrictions at uncontrolled intersections, 56
setback crosswalks, 82
widening turn lanes, 59
Zebra crossings, 92
Legal considerations
countdown pedestrian signals, 88
double fines, 100
Leonard, J., et al., 88
Level of service, defined, 106
Lighting for pedestrians, 44
Limit lines at uncontrolled crossings, 34
Locator tone, defined, 106
London, UK
- pavement legends and other pedestrian aids, 36
- railing at crossing, 41, 42
- refuge island, 40
- turning vehicle warnings, 91

London Research Centre, London Accident Analysis Unit, 41

Long Beach, California
- pedestrian collisions studies, 67
- removal of crosswalks, 67
- uncontrolled locations and marked crosswalks, 3

Longitudinal pavement markings on residential streets, 59

Los Angeles, California
- automated detection at signalized intersections, 85, 86
- double-posted signs at uncontrolled crossings, 32–33
- driveway signal and pedestrian crossing, 96
- flashing beacons, 45, 46, 121
- midblock signal-controlled crossings, 69, 70
- pedestrian collision studies, 10, 65–66
- removal of crosswalks, 65–66
- uncontrolled locations and marked crosswalks, 3, 120

M

Madison, Wisconsin, YIELD in-street signs, 29

Major street, defined, 106

Major street crossings
- “half signals,” 71–72
- with residential streets, 62–63
- uncontrolled locations, 29–57

Major traffic control items (MTCIs), 24–25

Marked crosswalks
- California, 3, 20, 117–119
- drawbacks of, 19
- Germany, 3
- removal of, 65–67
- studies, 6–10, 65, 103
- uncontrolled locations. See Uncontrolled locations
- United States, 19–20

Massachusetts. See specific cities

Median, defined, 106

Medians, 25, 70

Melbourne, Australia, sidewalk extension entry treatment, 62

Microwave detection of pedestrians at intersections, 85–86. See also Automated detection of pedestrians

Midblock crosswalks, 19–20, 104
- defined, 106
- flashing red signal, 69–70
- non-flashing red signal, 70–71
- Pelican crossings, 24, 72–73
- Puffin crossings, 24, 73–75
- staggered islands, 89
- Midblock pedestrian signals in Ontario, Canada, 23
- Miller, R., and R. Davis, 6
- Minimum clearing width, defined, 106
- Montana. See specific cities
- Multilingual population and signage, 81
- “Multiple threat” collisions, 19

N

Narrow travel lanes on residential streets, 59, 60–61

Nearside signals at signalized intersections, 96–97

Netherlands, 95–96
- blinking yellow signal indications, 95
- pedestrian collisions and fatalities, 6
- sidewalk extension entry treatment, 62
- New Jersey school crossing with fluorescent yellow-green sign and flashing beacon, 101
- New York, YIELD in-street signs, 31
- New Zealand installation guidelines, 24
- flashing beacons, 45
- high-visibility markings, 33

Nighttime
- accessible pedestrian signals and, 87
- chicanes with islands, 61
- curb extensions and, 47, 89
- motor vehicle-related collisions, 5, 54
- push buttons and, 84
- NO PASSING signs, 36

Norfolk, Virginia, diagonal crossings and visually impaired pedestrians, 83

O

Obstacle, defined, 106

Older pedestrians
- area for further study, 10
- Canada, determination of pedestrian volumes, 21
- fatality rate and, 5
- refuge islands and, 38
- right turns on red and, 94

Ontario, Canada
- double-fine warning sign, 100
- lagging pedestrian signal intervals, 80
- midblock pedestrian signals, 23
- midblock signal-controlled crosswalks, 70, 71
- perpendicular crossing, 97
- PXOs, 45
- school crossing sign with flashing beacon, 101
- Orange barrels at school crossings, 102
Oregon. See specific cities
Orlando, Florida
  in-pavement raised markers, 43
  right turn on red prohibition sign, 94
Overhead flashing beacons, 45
Overhead signs
  flashing amber lights on, 45
  fluorescent yellow-green at school crosswalks, 100–101
  signalized intersections, 90
  uncontrolled crossings, 37–38
Overpass, pedestrian, 25

P
Palm Springs, California
  curb extensions, 89
  lane reductions, 48, 49
  patterned paving in crosswalk, 50
Parking lanes
  reductions, 48
  widening of, 59
Parking restrictions
  advance limit lines at signalized intersections and, 82
  curb extensions and, 47, 89
  zigzag markings and, 35
Part-time street closures at school crossings, 101–102
Pasadena, California, scramble pattern at signalized intersections, 83
Passing sight distance, defined, 106
Passive detectors activating amber strobe lighting, 42–43
Pavement legends
  signalized intersections, 91
  uncontrolled crossings, 91
Peak hour trip (PHT), defined, 106
Peak hour turning movements (PHTM), defined, 106
Pedestrian, defined, 106
Pedestrian and bicycle shared crossings. See Toucan crossings
Pedestrian and Bicycle Task Force, xv, 1, 27
Pedestrian collisions
  Los Angeles, California, 65–66
  marked crosswalks alone, 65
  statistical data, 1, 5–6
  studies at marked crosswalks, USA, 6–10
  Ventura, California, 66–67
  Zebra crossings, 65
Pedestrian crossing installation guidelines. See Installation guidelines
Pedestrian crossovers (PXOs), 45
  Pedestrian-deterrent paving, 42–43
  Pedestrian flows, 24
  Pedestrian light controlled (Pelican) crossings, 72–73. See also Pelican crossings
  Pedestrian-operated signals. See also Push-button signals at intersections
    Australia, 26
    Pedestrian user friendly intelligent (Puffin) crossings, 73–75. See also Puffin crossings
  Pedestrian volume determination, 21
  Pelican crossings, 3, 24, 25, 26, 72–73
    automated detection and, 85
    railings used with, 42, 73, 82
  Perpendicular crossings, 97
  Petaluma, California
    automated detection at signalized intersections, 85
    overhead sign and flashing beacon, 47
  Phoenix, Arizona
    automated detection at signalized intersections, 85, 86
    school crossings and portable signs, 99
  Pork chop islands at signalized intersections, 90–91
    Portable signs
      school crosswalks, 99
      YIELD in-street signs, 29
  Portland, Oregon
    automated detection at signalized intersections, 85, 86
    flashing beacons at school crossings, 101
    intersection pedestrian signals, 72
  Puffin crossings, 3, 24, 25, 26, 73–75
    automated detection and, 85
  Push-button signals at intersections
    educational signs for, 80–81
    LED strobe lighting, 42
    for overhead signs, 38
    Puffin crossings, 74
    signalized intersections, 84
  PXOs (pedestrian crossovers), 45

R
Railings
  porkchop islands and, 91
  setback crosswalks and, 57, 82
  signalized intersections and, 73, 82–83
  uncontrolled crossings and, 41–42
Railroad crossings, 93
Raised crosswalks on residential streets, 61–62
Raised intersections on residential streets, 63
Raised islands. See also Refuge islands
    chicane with, 60–61
    pork chop, for right turn movements, 90–91
pork chop islands, 90–91
staggered at signalized intersections, 89–90
staggered islands, 89–90
uncontrolled crossings, 38–40, 53–54, 56
Raised pavement markers at uncontrolled crossings, 42–43
Ramps
  defined, 105
  wheelchair. See Wheelchairs
Reduced curb radii at uncontrolled crossings, 52–53
Refuge islands, 25, 103
  lane reduction and, 48
  pork chop islands, 90–91
  signalized intersections, 89–90
  staggered islands, 53–54, 89–90
  uncontrolled crossings, 38–40, 53–54
Removal of crosswalks, 65–67
  uncontrolled locations, 3–4, 103
Residential street crossings, 3, 13, 59–63
  chicanes with islands, 60–61
  longitudinal pavement markings, 59
  raised crosswalks, 61–62
  raised intersections, 63
  sidewalk extension entry treatments, 62–63
  speed cushions at crossings, 59–60
Retting, R., and R. Van Houten, 82
