Rising Stars Program

ITE is committed to cultivating the next generation of our profession. As such, ITE’s Rising Stars Program has been created to identify the next generation and new faces of the transportation profession. It is designed to recognize members under the age of 35 who have already made an impact on the profession, have demonstrated the ability to lead the next generation, and have implemented innovative techniques to solve transportation problems. Each year’s Rising Stars Class will consist of representatives from ITE’s Districts. Each year, one Rising Star will be selected for the Young Member of the Year Award.
