GENERAL NOTES

1. For use where sidewalk is not continuous,

2. Ramp centerline shall be radially from the back of the curb at the Sidewalk Ramp Control Point.

3. The top of the Ramp Curb along the back of the Sidewalk Ramp shall match the elevation of the back of the sidewalk and run parallel to the Sidewalk Ramp. The Ramp Curb along the side of the Sidewalk Ramp shall match the elevation of the back of the Curb & Gutter and the back of Ramp Curb.

4. Drainage inlets should not be located within marked crosswalks, or if crosswalks are not marked, within an area a standard marked crosswalk would otherwise.

5. Concrete shall receive a rough broom finish as shown.

6. See Std Dwg C-05.20 and C-05.20 for joint details.
