ITS CABINET DESIGN TEAM TELECONFERENCE
MONDAY, 10/18/10, 04:00 PM – 04:30 PM ET

ATTENDEES
• Ralph Boaz, Pillar Consulting
• Reza Roozitalab, McCain
• Bruce Eisenhart, ConSysTec
• James Kinnard, Adaptive Solutions
• Scott Evans, EDI
• Ron Johnson, Harris County, TX

GENERAL
• Have to have the UCD complete by the end of November 5.
• Changes have to be done in the next three weeks.
• Incredibly ambitious.
• Need more time to consider alternative approaches to the design.
• Expect that the concern is getting the working group consensus on anything new. If choose alternative concepts we won’t have anything in user comment form by the end of the year.
• Fundamental difference between the design team and James’ original approach is the AMU. Some members of the design team would like to exclude it.
• James says he has dropped the use of the AMU.
• James feels that the use of the PDA is still necessary.
• James feels that we might still complete the design material if we continue with his approach.
