

## **Technical Presentations/Guest Speakers**

ITE's transportation professionals are a valuable resource for providing on-site technical presentations and guest lectures to ITE Student Chapters. As such, ITE has established a process to facilitate student chapters' efforts in identifying speakers for meetings and events. To take advantage of this assistance, the chapter must submit the following information to ITE:

- Chapter contact (name, email address and phone number)
- Name of the student chapter
- District
- Date and location of meeting/event
- Topic

ITE will forward this information to the appropriate ITE Council(s) and/or local Technical Chairs. The interested parties will be instructed to contact the chapter representative directly to make arrangements.

For more information or to submit your speaker request e-mail [membership@ite.org](mailto:membership@ite.org).
